Present: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

Absent: None.

RECEPTION OF BIDS.

This time and place having been advertised for the reception of bids for furnishing fittings and making thirty-inch tap at Central and Jefferson Avenues, the City Clerk called for bids with the following result:

1. The A. P. Smith Mfg. Co., $2,975.00, with surety company bond.

On motion of Commissioner Fagen the reception of bids was ordered closed the bid received opened and read and referred to the Director of the Department of Streets and Public Improvements for investigation and recommendation.

IMPROVEMENT HEARINGS.

This time and place having been advertised as required by law for the purpose of considering the undertaking of the following improvement:

"The improvement of all that part of Division Street between 7th Street and 8th Street by improving with asphalt and constructing a sewer," and also for the purpose of considering the ordinance covering said improvement and to determine upon its adoption or rejection, in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, the City Clerk read the public notice of hearing and then called for anyone who might desire to be heard against or in favor of the improvement as proposed.

Attorney Edward Hoos presented a written protest on behalf of Mr. and Mrs. Rappe, owners of 386 7th Street, stating that the cost of the improvement is out of proportion to any benefit that their property might receive.

Frank Giordano of 356 First Street appeared and stated that he was in favor of the construction of the sewer but objected to the asphalt improve-

ment. His property consists of two lots on Division Street, between 7th and 8th Streets.

Mr. Joseph Damato, owner of the northwest corner of Division and 7th Streets, appeared and stated that he was in favor of the proposed improvements, he being one of the signers on the petition requesting said improvement. He stated, however, that he was willing to agree with the majority of the property owners if they thought the cost too high.

Commissioner Fagen suggested that the property owners get together and determine between themselves just what they want in the way of an improvement on Division Street, and then report to him within the next two weeks.

By Commissioner Fagen:

Resolved, That the hearing on the undertaking of the proposed improvement on Division Street, between 7th and 8th Streets, by improving with asphalt and constructing a sewer, in accordance with provisions of Chapter 152, Laws of 1917, be and the same is hereby adjourned and continued to Tuesday, June 21, 1921, at 2 p. m. in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.
Nays: None.

FRANCHISE HEARINGS.

The hearing on the application of the Natural Products Refining Co. for the vacation of certain parts of Commercial Street and Jane Street, having been adjourned and continued to this time and place, and the City Clerk having advertised that the Board of Commissioners would consider the final passage of an ordinance covering said application, the City Clerk read the ordinance and then called for anyone who might desire to protest against the final passage of said ordinance. No one appeared to protest and no written protests were received against the final passage of the said ordinance.

On motion of Commissioner Fagen the ordinance was referred to Miscellaneous Business for further action.

CITY ORDINANCES.

This time and place having been advertised for the purpose of considering the final passage of the following described ordinances:

"An ordinance authorizing $8,500 Temp. Impvt. Bonds of the City of Jersey City."

"An ordinance authorizing $10,500 Temp. Impvt. Bonds of the City of Jersey City."

"An ordinance authorizing $14,000 Temp. Impvt. Bonds of the City of Jersey City."

"An ordinance authorizing $3,000 Emergency Bonds of the City of Jersey City."

"An ordinance to regulate and control the business of selling and reselling of tickets for any boxing contests, theatrical performances, vaudeville shows, concerts, or any other entertainment,"

the City Clerk read each ordinance and then called for anyone who might desire to protest against the final passage of any of said above described ordinances. No one appeared to protest and no written protests were received against the final passage of any of the above described ordinances.

On motion of Commissioner Gannon the ordinances were referred to Miscellaneous Business for further action.

ZONING HEARING.

This time and place having been advertised for public hearing for the purpose of considering the adoption of an ordinance entitled "An ordinance regulating and restricting the location of trades and industries, and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected, and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the said purposes and providing penalties for the violation of its provisions," the City Clerk read the public notice of hearing and then called for anyone who might desire to be heard.

The Mayor announced that all those persons in favor the ordinance would be heard first.

No one appeared to speak in favor of the ordinance.

Mr. Robert P. Hoos, President of the Jersey City Chamber of Commerce, appeared before the Board, and on behalf of his organization made the following statement: "Mr. Mayor and members of the Board of Commissioners of Jersey City, I presume that this hearing is for the purpose of considering the adoption of an ordinance on building districts and restrictions. This matter has been before the committee of the Chamber for some time. The publication of the map as formulated by the Zoning Commission was published in the papers recently, and at a meeting of the committee and a call to the general membership today we found that it was a matter of vast detail and great importance. We found that many people had individual opinions regarding how this act would affect their individual holdings. In order that we might be able to present a more concrete opinion on the ordinance as framed, the Chamber requests that an extension of two weeks' time be granted before action is taken on the adoption of the ordinance. Our purpose in asking this is to enable us to place this map before every member of the Chamber, together with a copy of the ordinance; we invite the members of the Chamber to express their opinions after receiving these documents. From the answers we will compile a brief, which I think will be the best means of getting the ideas of two thousand of the best business people of the city."

The Mayor advised Mr. Hoos that he had no objection to granting the extension of time, but that he is desirous of hearing the opinions of the various people present. He stated that it was very pleasing to see such a large gathering because it was the best method of determining just what is for the best interest of the city. He requested the opinion of the other members of the Board of Commissioners.

Commissioner Bentley stated that a number of helpful suggestions could be obtained from the people appearing against the ordinance and suggested that these people be heard and the matter be laid over after hearing them.

Commissioner Gannon stated that the map and ordinance were very important and take quite some time to analyze properly. He stated also that he would like to get the opinion of the people from all sections of the city on the subject.

Mr. Hoos stated that for the purpose of the record "our committee is in favor of the general plan of zoning the city."

Commissioner Moore stated that maps should be made for each section and placed in the various schools in every section of the city; that it is a matter of vital importance; that the people should be given hearings in the different schools.

Commissioner Fagen stated that he thought Mr. Hoos' suggestion very wise, but at the same time he did not think that Mr. Hoos made his position clear, that is, he is not absolutely fixed as to the plan laid down in the present ordinance, but that he is fixed on the plan to zone the city. Mr. Hoos replied that such was his position.

The Mayor stated that the Board would now consider the arguments in opposition to the ordinance.

Mr. Berger appeared before the Board and stated that the Hudson City Board of Trade upholds the plan of the Chamber of Commerce and would like to have a greater and broader discussion of the plan as Commissioner Moore suggested.

The Mayor stated that it would mean holding hearings in the various sections of the city, at which a representative of the Board of Commissioners would be present and hear the various discussions and take notes for report to the Board.

Dr. Albanesius appeared before the Board and made the following statement: "On the apartment house question I am vitally interested. I am about to build one of the largest apartments in the city and practically in the State; it will cost in the neighborhood of $750,000.00. As near as I can understand from this map it is practically going to take one-third of my property at Gifford Avenue and the Boulevard, where I proposed to erect this apartment. It is within the last year or six months there has been twelve or more sales on that block. Only last week Judge Parker sold his property for an apartment house site. Commissioner Gannon has done a great deal for housing, and if we are going to take the lots and cut off 35 feet they are going to be practically useless for apartment house sites. Our property is in a position close to New York. We should encourage, not discourage, apartment house building. New York has apartment houses that rent for $20,000.00 a year each apartment. We have the same possibilities here.

The Mayor asked Mr. Albanesius f this zoning ordinance will prohibit him from going right to the building line. He replied that it would cut off about thirty-five feet on the Gifford Avenue frontage. The Mayor stated that such action would seriously hamper the apartment house development and that such an arrangement was probably meant for the private house development and not the apartment houses.

The doctor stated that there are thirteen houses on the block the assessed valuations of which amount in the aggregate to $250,000 or $300,000, and there is no chance to raise them very much more while they are private residences. He stated that his proposed apartment would cost $750,000 and there are still twelve plots remaining.

Commissioner Gannon stated that the area at present of the city is 19.1 square miles and with the completion of the proposed tunnel and industrial improvements, the area will be greatly reduced, therefore it will require that every available inch of land be utilized.

Commissioner Michael J. Sexton of the Zoning Commission stated that Dr. Albanesius's property is the only property fronting on the Boulevard, which is an open thoroughfare, and he would not have to maintain a setback on the side street for that reason. Further, that the setback is more applicable to the lots fronting on the side streets, not on the main thoroughfare. He also stated that he told the doctor that he was not in favor of the setback, and that such a matter should be agreed upon between the property owners themselves on the particular blocks.

Commissioner Fagen asked Mr. Sexton if he would state absolutely that he does not favor the setback in case it is.

Mr. Sexton replied that if the people affected are in favor of it, he thinks it is a very fine thing, but that you cannot enforce it otherwise.

The Mayor stated that he did not think it fair that 51 per cent. of the residents should tell the remaining 49 per cent. what to do with their property.

Dr. Albanesius stated that he did not want Mr. Sexton to think that he was speaking for himself only, but that he had the interest of the City in mind.

The Mayor then stated that the Commission desires to encourage building apartment house sites and that he hoped the Doctor would build a one million dollar apartment; that the overflow of residents from New York must be taken care of by Jersey City and that nothing will be put in the way of encouraging building operations; that we are not going to permit junk shops and undesirable buildings to be erected in the apartment house sections; that no shacks will be permitted like at present on Newark Avenue; that the Board will stand by the Chamber of Commerce and by anyone who is in favor of the improvement of the city.

Mr. M. T. Connolly addressed the Board and stated that his property faced on Gifford Avenue and he would have to lose some of the property. The Mayor replied to Mr. Connolly that Mr. Sexton had stated that such an arrangement for a setback would be arranged between the property owners themselves, but, however, there would be no objection if he cared to build right up to the building line.

Counsellor Chas. E. S. Simpson appeared in behalf of property owners on Fleet Street between Oakland and Baldwin Avenues, and stated that he would like to attend the meetings affecting the property of his clients, so that he could obtain further information.

Mr. Wynn appeared with Mr. Shannon, owner of 75 garages on Bernius Court, between Jackson and Bergen Avenues. Mr. Wynn stated that the new ordinance sets Bernius Court as a residential section, which would mean the removal of the garages, and the property is not suitable for any other purpose; that Mr. Shannon caused the street to be graded and improved. The Mayor advised Mr. Shannon that his cause would be taken up at the hearing in that particular section.

Mr. T. J. Kelly of the Whitlock Cordage Company appeared and tated that his company will lose about 30 feet of frontage by the terms of the new ordinance. The Mayor instructed him to take the matter up with the Zoning Commission who will attend to his case.

Mrs. Hunter, who owns property on Monticello Avenue between Storms Avenue and Orchard Street, also requested further information on the ordinance.

A written communication was received from Mary E. Manion, of 89 Sherman Place, requesting that the block on the Hudson Boulevard between Newark and Van Winkle Avenues, be zoned for business.

A communication was received from James T. Mullins, of 239 Beacon Avenue, objecting to any portion of Underwood Place being zoned as commercial or for any other purpose than residential.

A communication was also received from Walter J. Gorman, of the Stone & Tile Art Co., Inc., requesting that the property bounded by Ocean Avenue, Chapel Avenue and Ludlow Street be zoned for commercial or manufacturing purposes.

On motion of the Mayor, the foregoing communications were referred to the Zoning Commission for investigation.

In conclusion the Mayor advised those present that the plan of Commissioner Moore to hold hearings in the various sections of the city would be adopted and that the matter will be continued for four weeks during which time the Chamber of Commerce will have had ample time to go over the matter with their large membership of representative business men and submit report, and by that time the people will have gained a good knowledge of the terms of the ordinance and when the hearing is taken up again everyone interested will be in position to discuss the matter in a more intelligent manner.

Thereupon the following resolution was introduced:

By Mayor Hague:

Resolved, That the hearing on the adoption of the ordinance providing for the zoning of the city, be and the same is hereby adjourned and continued for a period of four weeks to Tuesday, July 5th, 1921, at 3 P. M., in the Assembly Chamber, City Hall, Jersey City.

Weissenborn, representing the Pencil Exchange, owners of lots 20A to 29A, inclusive, and also lots 5 and 6, owned by Empire Trust Co.; John Lewandoski, owner of lot 32A, block 561; Heyman Cohen, owner of lot 13, block 562; A. B. Cotter, owner of lot 23A, block 561; Luke Loughlin, owner of lots 7 to 10, inclusive, block 562, and Mary A. Cathcart, owner of lots 24 and 25A, block 561, appeared before the Board and protested against the price assessed on their property for the improvement.

Commissioner Fagen asked if there was anything the matter with the method of construction. Counselor Weissenborn stated that the improvement fills the bill, but that some depressions were evident, caused by heavy trucking. Commissioner Fagen advised the protestants that the improvement was undertaken during the war times, when labor and material were high, because several property owners had urged him to improve the street.

Counselor Weissenborn advised Commissioner Fagen that the original protest signed by the property owners had been filed with the Commissioner on May 28.

By Commissioner Fagen:

Resolved, That the hearing for the purpose of receiving objections to the confirmation of the final assessment map for the improvement of Fleet street between Baldwin avenue and Oakland avenue, in accordance with the provisions of Chapter 252, Laws of 1917, and the various supplements thereto and amendments thereof, be and the same is hereby adjourned and continued to Tuesday, July 12, 1921, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

HOLMES AVENUE

Three property owners appeared and stated that the water does not drain off properly after a rain storm, and also that the wall of the cemetery encroaches two feet over one of the lots.

Commissioner Fagen advised them that he would investigate the matter and see that the condition is remedied.

By Commissioner Fagen:

Resolved, That the hearing for objections to the confirmation of the final assessment map for the improvement of Holmes avenue between Sip avenue and its southerly terminus in accordance with the provisions of Chapter 152, Laws of 1917, be and the same is hereby adjourned and continued to Tuesday, July 12, 1922, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

This time and place having been advertised for the purpose of considering the undertaking of the following improvements:

The improvement of all that part of Bramhall avenue between Halladay street and Woodward street, and also for the purpose of considering the adoption or rejection of an ordinance covering said improvement, in accordance with the provisions of chapter 152, laws of 1917, and the various supplements thereto and amendments thereto, the City Clerk read the public notice of hearing and then called for anyone who might desire to protest against the undertaking of the improvement. No one appeared to protest against the undertaking of the improvement and no written protests were received against the same.

The City Clerk then called for anyone who might desire to speak in favor of the undertaking of the improvement.

Mrs. Howard of 373½ Bramhall avenue and Elizabeth Speer of 373½ Bramhall avenue appeared and stated that the street was in very poor condition and the improvement was necessary.

On motion of Commissioner Fagen the matter was referred to miscellaneous business for further action.

ALTERATION HEARINGS

This time and place having been advertised for public hearing on the following described applications for alterations:

Jos. Branegan and Chas. Joyce, repair fire damage at 194-196 Newark avenue.

Pauline Celm, alter and build garage in basement, 55 Seaview avenue.

Frank Pattie, alter and build garage in cellar, 241 Linden avenue.

—the City Clerk read each public notice of hearing and then called for anyone who might desire to protest against the granting of any of the above described applications. No one appeared to protest and no written protests were received against the applications of S. Halpern, Pauline Celm and Frank Pattie.

Mr. George Kleinhaus appeared before the Board and stated that in the name of the Jersey City Business Men's Association he protested against the application of Messrs. Branegan and Joyce for permission to alter 194-196 Newark avenue, this application being for altering a building adjoining the one that the Board recently refused a permit to alter, and further that this building was in worse condition than the one for which the Board refused the permit.

Commissioner Fagen stated that the Business Men's Association should be sustained in their protest.

The Mayor stated that Mr. Joyce had taken the matter up with him and that he in turn advised him to take the matter up with the Business Men's Association, and that if they agreed to the alteration, then the Board would grant the required permission. In view of the fact that Mr. Joyce had not as yet reported on the matter he recommended that the matter be laid over for one week.

OFFICERS' COMMUNICATIONS.

From General Purchasing Agent, recommending awards of contracts to low bidders for items on which less than three bids were received.

Received and recommendations adopted.

From John Nevin, M. D., Medical Director of Jersey City, advising the board that for over two years past Dr. William F. Faison has been treating cancer patients at the City Hospital with radium, and only a very small percentage of these cases are in a position to give him any compensation, and he would therefore suggest that the doctor be paid a sufficient amount to at least cover his expenses.

In connection with the foregoing communication Dr. Nevin appeared before the board and explained in detail the necessity of the radium treatment. He stated that Doctor Faison owns about $56,000 of radium and that he was the only man who was familiar with the method of using it; that if the City should buy any it would cost from $60,000 to $75,000, and that it would be necessary to employ an expert to apply it; that every large hospital in the United States has a supply of radium; that in his opinion the doctor should be paid about 5 per cent. on his investment, or $2,500 per annum.

The commission discussed the matter at length and agreed that the doctor should be compensated for his services and the use of the radium.

The mayor suggested that $2,500 in his opinion would not be sufficient to reimburse the doctor for his valuable service and recommended that $3,600 per annum be paid to him, which would only be 6 per cent. on his investment for the radium.

Dr. Nevin stated that Dr. Faison paid $1,800 a year insurance on his supply of radium and also spends two or three hours a day caring for the patients at the City Hospital.

The Mayor asked Dr. Nevin in what manner the doctor could be reimbursed for his services.

Dr. Nevin suggested that he be appointed as attending physician to the class of cancer patients, of the City Hospital.

The Mayor advised Dr. Nevin to take the matter up with Commissioner Smith of the Civil Service Commission for an opinion as to the jurisdiction of the Board of Commissioners in making such an appointment.

In conclusion the following resolution was introduced:

By Mayor Hague:

Whereas, Dr. John Nevin, Medical Director of Jersey City, has advised this Board today, verbally, of the services being rendered to the people of Jersey City, at the City Hospital, by Dr. William F. Faison; and

Whereas, Dr. Nevin informed this Board that Dr. Faison is giving to the cancer patients at the City Hospital the use of radium which costs $60,000.00, for the treatment of these patients; and

Whereas, It is the opinion of this Board that remuneration should be given to Dr. Faison for the services rendered; therefore be it

Resolved, That Dr. William F. Faison be and he hereby is appointed Specialist in the Class of Cancer Diseases at the Jersey City Hospital, at an annual salary of $3,600.00, payable in equal semi-monthly installments, said appointment to take effect immediately.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

Present: Commissioners Bentley, Fagen, Gannon and Mayor Hague.

Absent: Commissioner Moore (excused).

RECEPTION OF BIDS:

The time and place having been advertised for the reception of bids for furnishing and delivering one auto chassis for use at the Jersey City Hospital, the City Clerk called for bids, with the following result:

1. Jersey City Cadillac Co., $3,976, with surety company bond.

On motion of Commissioner Gannon the reception of bids was ordered closed, the bid received opened and read and referred to the Director of the Department of Public Affairs for investigation and recommendation.

IMPROVEMENT HEARINGS:

This time and place having been advertised for public hearing on the undertaking of the following improvement:

The improvement of all that part of Woodlawn avenue between the westerly line of lot 50, block 1281A and the westerly line of lot 75, block 1281B

—and also for the purpose of considering and determining upon the adoption or rejection of an ordinance covering said improvement in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, the City Clerk read the public notice of hearing and then called for anyone who might desire to be heard in favor of the proposed improvement.

Mr. A. Makray, agent for the Realty Company of New Jersey, appeared and stated that he was in favor of the improvement; that as long as the street was going to be cement, he would like to know if it could not be kept clear of heavy traffic.

Commissioner Fagen replied that the procedure for keeping traffic off a certain street was for the Board of

Commissioners to introduce an ordinance and then forward a copy to the Motor Vehicle Commissioner of New Jersey for recommendation.

Mr. Charles H. Conrad, of 1906 Boulevard, owner of lots 32, 33, on Woodlawn avenue, appeared and stated that he was opposed to the improvement because it will not do the section any good except to give the Kellogg Company another street for their trucks to run on. He also stated that the improvement was taken up some time ago, and requested information as to what disposition was made.

Commissioner Fagen stated that the previous application had been considered during the World War period, but was thrown out on account of the Capital Issues Committee refusing permission for us to borrow money to finance the said improvement.

On motion of Commissioner Fagen the matter was referred to Miscellaneous Business for further action, and the protest referred to him for investigation.

The hearing on the application of S. W. Kagan requesting permission to put in new store front and alter interior at No. 181 Newark Avenue, having been adjourned and continued to this time and place, Counsellor Mark Sullivan appeared before the Board and requested that the matter be deferred for one week.

By Mayor Hague:

Resolved, That the hearing on the application of S. W. Kagan requesting permission to build new store front and alter interior of premises at No. 181 Newark Avenue, be and the same is hereby adjourned and continued to Tuesday, July 12th, 1921, at 2 P. M. in the Assembly Chambers, City Hall, Jersey City.

This time and place having been fixed by the City Clerk for public hearing on the application filed with the Board of Commissioners by Morris Soled and Heyman Zeider requesting permission to erect five brick garages in the rear of 95-97-99 Sackett Street, the City Clerk advised the Board that he had notified all interested parties to be present at this time and place. The City Clerk advised the Board that two applications had been made prior to this one, requesting permission to build garages and also requesting permission to build a storage house, and the Board denied both applications.

Mr. Heyman Zeider appeared before the Board and stated that Mr. Soled, his partner was sick, that he intends to build five brick garages; that if the the people object to the garages he will build a storage house for furniture; that it is a big lot and cannot be used for any other purpose.

Lieutenant Thomas Collins with a large number of residents and property owners living in the vicinity, appeared before the Board and strongly protested against the granting of permission for the garages. Lieutenant Collins stated that these garages would come right up to the bed rooms of the adjacent property, and a storage warehouse would be even more annoyance.

The Mayor advised Lieutenant Collins that a storage house would not create any unnecessary noise; that Mr. Zeider owns the property there and that he is entitled to some rights as a property owner; that he will only store furniture there and that a storage house will be much better than a garage; that the Board cannot compel him to build a house; that if Mr. Zeider took the matter to Court he would be upheld and a decision would be rendered against the City; that it would be unfair to cause Mr. Zeider to go to the Courts and be subject to extra unnecessary expense.

The Mayor asked Mr. Zeider what the storage house will consist of and how it will be built.

Mr. Zeider stated that his partner, who is sick, is the builder, and that he did not exactly know ho wit was to be erected, but only furniture and such things would be stored there.

The Mayor stated that it was the policy of the Board of Commissioners to deny applications for garages, etc., whenever protests were filed against such applications; that in this case several property owners and residents oppose these garages because it will seriously inconvenience them in their homes and will be detrimental to their property and also cause an increased insurance rate; therefore he would recommend that the application be denied.

By Mayor Hague:

Whereas, Public hearing was held this day on the application filed with the Board of Commissioners of Jersey City by Morris Soled and Heyman Zeider requesting permission to erect five brick garages at the rear of premises 95-97-99 Sackett Street, being Lot P4 in block 1934; and

Whereas, At said hearing several property owners and residents in the vicinity of the proposed garages appeared and protested against the erection of the garages because said garages will inconvenience these residents, cause an increase in their insurance rates and also be detrimental to their property; and

Whereas, In the opinion of the Board of Commissioners, said protest is just and should be sustained; therefore be it

Resolved, That the application of Morris Soled and Heyman Zeider requesting permission to erect five brick garages in the rear of 95-97-99 Sackett Street, be and the same is hereby denied for the reasons above set forth.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon and Mayor Hague .

Nays: None.

The Mayor then advised Mr. Zeider to have prepared a blue print or plot plan showing just how the storage house will be erected and giving all the details as to what will be stored there and then to submit the plan to the Superintendent of Buildings and this Board and if it meets with the approval of the Board the application will be passed upon.

Mrs. Lynch, one of the protestants stated Messrs. Soled and Zeider had erected a gate and fence, thereby shutting off her property.

The mayor advised Mrs. Lynch that the board had no jurisdiction in the matter as long as this gate and fence were located on property owned by Messrs. Soled and Zeider.

The hearing on the protest filed against the application of Louis C. Hummell for permission to erect garages at 169-171 York street, having been adjourned and continued to this time and place, the City Clerk declared the hearing open.

Counsellor William Freund appeared for the applicant, Mr. Louis C. Hummell.

Counsellor Mark Sullivan appeared for the protestants.

Counsellor Freund asked whether Counsellor Sullivan represented all the protestants.

Counsellor Sullivan stated that he was representing Mr. J. I. Hass, but that he will represent all of them insofar as they need representing.

Mr. Freund stated that it was important to know exactly because, if there was only one protestant the matter might be adjusted; that Mr. Hummell proposed to erect storage garages for cars; that no gasoline will be sold on the premises; further, that some of the people who signed in favor of the garages also signed the protest against said garages. Mr. Freund read a letter from Miss C. Bradford of the Whittier House which stated she had no objection to the garages.

Counsellor Sullivan stated that Mr. Hass owns the house directly adjoining the Hummell property on the east; that Mr. Hass was recently compelled by the Building Department to put in new front and new side walls at a cost of $5,000; that there are no garages on that block; that the property has been in the possession of Mr. Hass for some years past and that the block is a residential block; further, that there is a large apartment house at the corner of York and Van Vorst streets, housing about forty or fifty families; that adjoining this apartment is another building containing about forty families; that a public garage right in the middle of the block will have a bad effect on the houses in the vicinity for residential purposes; that it will increase insurance rates. He also stated that Mr. Hummell's statement to the effect that no gasoline will be sold on the premises is not the serious matter; the fact is that cars will be driven in there, left for storage, cleaned, polished and then driven out again, and that the location of the garage there is the reason for the protest. Further, first of all, it is going to depreciate the value of the property; secondly, it is going to make it a section which will not be proper for residential purposes and depreciate the rentals that may be obtained; thirdly, because it will increase the insurance rates; that Mr. Haas suggested to him that the land will have to be piled in order to build the garages, and the adjacent houses being so old, there will be great danger in piling; that the protest is signed by everybody on the block with the exception of Mr. Meehan, who owns the property adjoining Mr. Hummell's property on the west.

The Mayor asked Mr. Freund what interest Miss Bradford had in the property.

Mr. Freund stated that the property was never turned over to the Whittier House, and that it was purchased by Mr. Hummell.

Counsellor Sullivan stated that the property was bought for the Whittier House, and they sold it, and that in his opinion it seemed to him that Miss Bradford was interested in the sale of that property.

Counsellor Freund stated that on the side of the street where the garages are proposed there are two stores, one occupied by Mr. Hummell as a plumbing shop; that there is a garage in the basement; that the Zoning Commission have zoned that section; that they have approved of the plans and are willing to grant a permit.

The Mayor advised Mr. Freund that the Zoning Commission have no power to hold a hearing on a protest; that they grant a permit subject to the approval of the Board of Commissioners; that it has always been the practice of the Board of Commissioners to sustain the protests against anyone coming in and locating and trying to establish a nuisance and trying to depreciate the neighborhood; that the property owner and resident has always been protected; that if the protestants deem that the garage will be a nuisance, then they must be protected.

Counsellor Freund stated that the Commission should take into consideration the fact that Mr. Haas has a garage in the immediate neighborhood and is therefore also keeping a nuisance, and in that manner the protest might be on account of the competition; further, that Mr. Hass now has his property adjoining Mr. Hummell's property for sale in the market.

The Mayor stated that Mr. Hass would be within his rights in protesting, because the nuisance might injure the sale of the property; that if Counsellor Freund had nothing further to state, the Board would vote on the application.

Counsellor Freund asked that the matter be referred to one of the Commissioners for investigation, because the case warrants investigation.

The Mayor referred the request to the various members of the Board.

Commissioner Bentley stated that his mind was made up on the matter. Commissioner Fagen stated that he was familiar with the neighborhood for the past thirty years. Commissioner Gannon stated that the point that had not been brought out was the fact that here is a Polish school and a Parochial school in the immediate vicinity, and that there is a great deal of traffic up and down on this block.

Counsellor Freund stated that one of the rectors of the Polish school had signed in favor of the garages.

The Mayor replied that the approval of a man who lives blocks away from the proposed garages does not help the application.

Counsellor Freund stated that Mr. Hass does live there.

Mr. Hass stated that he would not have purchased the property if he had known that the garages were to be erected there.

In conclusion, the following resolution was introduced on motion of the Mayor:

By Mayor Hague:

Whereas, Public hearing was this day held on the protests filed against the application of Louis C. Hummell requesting permission to erect one brick building at No. 169-171 York

Street, to be used for public garage purposes; and

Whereas, At said hearing counsel for said protestants appeared and stated that the garages will depreciate the value of the property on the block; that it will depreciate the residential value; that it will increase fire insurance rates; that it will be an extra hazard on account of the schools in the immediate vicinity; and

Whereas, In the opinion of the Board of Commissioners the said protests are just and should be sustained; therefore be it

Resolved, That the application of Louis C. Hummell requesting permission to erect brick building at No. 169-171 York Street, to be used for public garage purposes, be and the same is hereby denied for the reasons above set forth.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon and Mayor Hague.

ZONING HEARING

The hearing on the ordinance entitled "An Ordinance of building districts and restrictions known as The Building Zone Ordinance," having been adjourned and continued to this time and place, Mr. Robert J. Hoos, President of the Jersey City Chamber of Commerce, appeared before the Board and presented a report or brief compiled by the Zoning Committee of the Jersey City Chamber of Commerce after investigation of the ordinance as proposed. In conclusion the brief suggests that final action on the zoning ordinance should be deferred for a period of at least three months or until the first meeting of the City Commission in October, this suggestion being based upon the fact that the attendance at the various hearings held by the Commission have been exceedingly poor and the general public interest has not been sufficiently aroused to the importance of the ordinance and map to warrant its passage by the City Commission.

Dr. Albanesius appeared before the Board and requested information from Mr. Hoos relative to the enforcement of the 200 feet set-back. Mr. Hoos replied that the consent of the adjoining property owners must be obtained.

Commissioner Gannon stated that the set-back plan would prevent apartment house building in Jersey City.

Willard Stanton, Manager of the Jersey City Chamber of Commerce, stated that some sections should be maintained as residential.

Commissioner Gannon stated that we cannot do it, because we have not sufficient room.

The Mayor stated that he was in favor of the adjournment and asked Mr. Sexton, Chairman of the Zoning Commission, if he had any objection to the adjournment.

Mr. Sexton stated that in his opinion the matter should be adjourned for one month because several things are happening and if the Board held a conference with the Zoning Commission the various suggestions could be considered and the people interested could be granted a hearing and then the ordinance could be adjourned from month to month.

Commissioner Fagen suggested that the Law Department should brief the matter; that the various protests and suggestions made by people should be considered and analyzed by some member of the Law Department, so that when the conferences are held the matter will be presented in an intelligent manner.

The Mayor suggested that each department of City government be represented at the various conferences, together with Dr. Albanesius, Mr. Hoos, a representative from the Jersey City Law Department, and the Superintendent of Buildings, and also instructed the City Clerk to advise the various people as to the time and place of the conferences.

By Mayor Hague:

Resolved, That the hearing on the ordinance entiled "An Ordinance of building districts and restrictions known as The Building Zone Ordinance," be and the same is hereby adjourned and continued to Tuesday, August 2d, 1921, at 2 P. M., in the Assembly Chamber, City Hall, Jersey City.

By Commissioner Fagen:—

Whereas, The Director of the Department of Streets and Public Improvements reports to this Board that a 48-inch valve on the east bank of the Passaic River, being the easterly end of the water pipe line installed by Joseph L. Sigretto Company, cracked some time ago, and when discovered was under pressure from the field test being conducted by Patrick McGovern, the contractor having charge of the construction of a new water line from the Passaic River to the Summit Avenue Reservoir, the said valve acting as a bulkhead for the pipe line being installed by the said McGovern; and

Whereas, Said Director further reports that he did not have the cracked valve repaired because both the contractors disclaimed responsibility for its condition and for the reason that in order to repair the valve it would have been necessary to have a discontinuance of the test then being made of that portion of the pipe so laid by the said McGovern; and

Whereas, The said Director further reports that the said test has been completed, and on July 13, 1921, the said cracked valve lifted out of place; and

Whereas, In order to complete the said McGovern contract it will be necessary to have such cracked valve either repaired or replaced and so as to prevent any delay in the completion of the said McGovern contract and the possible rise of claims therefor; and

Whereas, The said Director reports that it is advisable that a new valve be installed as an emergency without advertising for bids therefor, said work to be done on a plus cost basis, the said Director estimating that the cost will probably be in the neighborhood of $8,000; therefore be it

Resolved, That in the judgment of this Board, an emergency within the meaning of the Statute exists, viz.: to cause the immediate installation of a new valve so as to permit the completion of the contract of the said McGovern without delay, thereby preventing the making of any claims for damages by reason of this delay;

Further Resolved, That the Director of the Department of Streets and Public Improvements be and he hereby is authorized and directed to enter into a contract in the name of the City with any responsible contractor selected by him for the purchase and installation of a proper valve in the place and stead of the one so cracked, the work to be done upon the basis of cost plus such percentage as may be agreed upon between the said Director of the Department of Streets and Public Improvements and such contractor as he may decide upon and in a manner satisfactory to the said Director.

The Acting City Clerk at this time advised the Board that a peremptory writ of mandamus had been served upon him in the matter of the application of Louis C. Fagen, A. Harry Moore and John Bentley, the Board of Commissioners of Jersey City, to issue a permit to Louis C. Hummel for the erection by said Louis C. At this time Mr. Thomas Fields, Commander Fred Trestrail Post, National Disabled Soldiers' League, appeared before the Board with a large delegation and thanked the Board for the permit granted to them for holding a three-day tag day for the benefit of the disabled soldiers and their dependents. He stated that the funds will be distributed by a committee of disabled soldiers who know the wants of their comrades and the dependents; that the various relief funds take care of the soldiers only and not the dependents.

The Mayor suggested that inasmuch as the League will probably collect a large sum of money, that it is advisable to include in the dispersing committee representative people of the city, such as a bank president, a clergyman, well-known business men, also one or two women, so that the public will be assured that this money will be dispersed properly and to the actual needy.

The Mayor suggested to Mr. Fields that he appoint the committee first, and when it is completed to advise him and then he will send out the proclamation the day before the drive so that the interest of the people will be centered on those days.

On motion of Commissioner Moore the Board adjourned.

This time and place having been fixed by the Acting City Clerk for public hearing on the protest filed against the proposed erection of a garage in front basement at 272 Ogden Avenue, Jersey City, the Acting City Clerk called for anyone who might desire to be heard in the matter.

Three women who signed the protest appeared before the Board and stated that the case was misrepresented to them and inasmuch as no garage is to be erected, that they withdraw their protest. No one else appeared to protest.

The applicant, Mr. Sanfillippo, with the contractor, Mr. E. E. Hamilton, and their counsel appeared before the Board and stated that they propose to erect a brick addition in the rear of the present property and that no garage is to be erected.

Inspector Thomas Duff, of the Building Department, appeared before the Board and stated that the plans call for an addition in the rear of the building and not for a garage in the front basement.

On motion of the Mayor the hearing was ordered closed and the matter referred back to the Superintendent of Buildings with power.

The Acting City Clerk having fixed this day for public hearing on the protest filed by residents of Second Street in the Fifth Ward of Jersey City against the further construction of bakers' ovens, upon which protest the application of F. Siniscalchi for permission to erect a bakers' oven at 402 Second Street, was denied pending the disposition of the protest, and notification having been sent to all parties interested, the Acting City Clerk called for anyone who might desire to be heard in the matter.

Counsellor William R. Gannon appeared for the applicant and urged that the permit be granted.

Counsellor Louis Messano appeared for the persons who signed the protest and requested that the hearing be adjourned for another week inasmuch as he had only been engaged by the protestants the day before and he has not had sufficient time to thoroughly investigate.

Gannon appeared before the Board on behalf of Mr. F. Siniscalchi, whose permit for permission to erect a baker's oven at 402 Second Street was denied by the Superintendent of Buildings pending disposition of the protest. He urged the Board to grant the application in view of the fact that no one appeared to protest against it; that he had taken the matter up with Counsellor Messano, who represented the protestants, and that Mr. Messano stated he would look into the protests and that, if there was no reason for them, he would not appear before the Board.

Commissioner Fagen moved that the permit be issued, inasmuch as there was no one to protest.

REPORTS OF DIRECTORS.

From Commissioner Fagen, advising the Board that he held a subsequent hearing in his office to which all the protestants were invited in the matter of the confirmation of the final assessment map for the improvement of Van Winkle Avenue between Liberty and Tonnele Avenue; that they all agreed that the work was done in a workmanlike manner and they were entirely satisfied with the improvement but thought that the cost was too high; that he informed them that the assessment was not any more than other assessments for like work throughout the City; that the protestants then stated that they would be satisfied to leave it in his hands for whatever action he might desire to take. Therefore recommending that for the above reasons, the assessment be confirmed and the City Clerk directed to prepare necessary resolutions.

At this time Messrs. S. Kleninhaus and Robert Hoos appeared before the Board with a representative gathering of the Business Men's Association of Jersey City, composed of downtown Newark Avenue retail merchants with a lengthy report on the housing and unemployment situation which is confronting Jersey City at the present time;

requesting that some concrete form of activity be planned to relieve the prevailing condition of affairs, to the end that when the Legislature convenes this Fall that Jersey City bring about all its moral, financial and legal aid possible to obtain the necessary constructive legislation thereby enabling Jersey City to carry on an extensive program in this direction.

Mayor Hague announced that the reports and suggestions presented are of deep concern to the City; that the Commission at this time, realizing the efforts of the Business Men's Association, is ever ready and willing to go into the matter and create public sentiment with a view to rehabilitate conditions; that the question which has confronted the public in these times of stress is the fact that nothing has been forthcoming in the matter of equalizing the market of food products and merchandise with the scale of wage paid to labor; that there is no question that while labor is willing to ease matters, with market conditions still abnormal, there can be but little adjustment.

Mayor Hague suggested that it would be a very good idea to bring together the many influential business men and Business Men's Associations in the various lines together with the labor delegations to confer with this Board in the very near future, which conference will be called by the Mayor in his office.

This time and place having been set for hearing on the protest of property owners and residents in the neighborhood of Virginia Avenue and Jackson Avenue objecting against the nuisances and disturbances centered about the lunch wagon being conducted by one Mrs. Greenside in that vicinity, Counsellor Robert Kinkaid appeared for the protestants, stating that conditions have become so that the lunch wagon should either be removed or that the board place some control over the lunch wagon by some strict regulations; that the lunch wagon close at a certain hour.

Counsellor William George appeared for Mrs. Greenside and asked for an adjournment of the hearing, that he had not had ample notice of hearing on this subject, and requested an adjournment to Tuesday, October 4, so that he could present witnesses.

Commissioner Bentley stated that if Mrs. Greenside could regulate the opening and closing of the lunch wagon it would be to her advantage to do so. Mayor Hague suggested that she either close at 10 o'clock or if the conditions still go on she will have to move the lunch wagon. It was decided that the lunch wagon be closed at 10 o'clock p. m., and at 3 o'clock the cook will enter and prepare the breakfast and open the lunch wagon at 4:30 a. m. for the next two weeks, when a further hearing will be granted Mrs. Greenside.

On the protest of the residents and property owners in the vicinity of Carlton Avenue and Boulevard, objecting against the construction of two additions to present building on Carlton Avenue and Boulevard, the City Clerk called for anyone who might wish to be heard in the matter. Mr. Fickbohm appeared and related the fact that some time ago when they built their present garage there was some question as to the conducting of the same, but the fact that they use the entire block for trying out their repaired vehicles and the parking of them in the street, together with the noise of the repair work, interferes with the peacefulness of the community. By the erection of an addition to their building for use as a showroom, which is not so, the disturbances will still be greater.

Mayor Hague suggested that the matter be held over until next Monday, September 26, 1921, as Commissioner Gannon has some statement to make in connection with this application.

At this time Mr. Reynolds, with counsel, appeared, representing the Rialto Amusement Company, who intend to erect a moving picture house at 336 Bergen Avenue, making inquiry as to what objection there was to the erection of said building.

Mayor Hague brought forth the fact that the Rev. Everett of the First Congregational Church has made strenuous protest against the erection of this building, being so close to the church and it being in a residential neighborhood; that the protestants were entitled to consideration in this respect. It was suggested that it would be a good idea if the Rialto Amusement Company would build somewhere else rather than in that particular place. Mr. Reynolds agreed to withdraw his plans from the Building Department.

ALTERATION HEARING.

This time and place having been advertised for the purpose of considering the application of Chas. Bell for permission to erect two brick garages at 56 Hancock Avenue, Jersey City, the City Clerk called for anyone who desired to protest against the erection of said garages. Mr. Schlundt appeared with a written protest signed by the neighboring property owners strenuously objecting against said application; that it would be a detriment to the neighborhood and abutting property; that the question of building a garage seems to be a subterfuge in obtaining said permission; that said structure would be used for storing motorcycles, etc., that it would become a fire hazard, and on the strength of the Commission refusing permission to erect similar structure on this property last year it should be denied at the present time. No one appeared in favor of said application.

By Commissioner Gannon:

Whereas, The City Clerk of Jersey City has published notice of hearing by the Board of Commissioners upon the said application of Charles Bell for permission to erect two brick garages at 56 Hancock Avenue, Jersey City, as required by ordinance governing said application; and

Whereas, Said Board of Commissioners at the conclusion of said hearing, after considering said application and protests filed, is of the opinion that the erection of said garages at 56 Hancock Avenue, Jersey City, N. J., will increase the danger of damage by fire to the adjoining buildings, and will cause an increase in the rates charged for insuring the adjoining buildings against loss or damage by fire, and will be a nuisance to said neighborhood; therefore, be it

Resolved, By the Board of Commissioners of Jersey City, that the application of Charles Bell, for permission to erect two brick garages at 56 Hancock Avenue, Jersey City, N. J., be and the same is hereby disapproved.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

At this time Mr. Wm. Byron appeared in the matter of his application for permission to erect a brick extension to present building situated on the southwest corner of Carlton Avenue and Boulevard to be used for the purpose of a show room and Service Station.

Mr. Byron stated that the plant of the Packard Company, who now occupy the premises, is not large enough, they intending to enlarge their plant on the strength of the growth of their business.

Mr. Fickbohm and others filed protest against said application.

Commissioner Gannon stated that if their service station is to be built directly in back of the showroom where it is going to be a nuisance and a fire hazard, the erection of the proposed extension will not help the abutting property owners any. These protesting property owners who have all their earnings invested there have a moral right in the matter and must be considered.

By Commissioner Gannon:

Whereas, This Board, having held hearings and considering the application of William Byron for permission to erect brick extension to present building situated at the southwest corner of Carlton Avenue and Hudson Boulevard, and considering the objections filed, is of the opinion that the erection of said extension for showroom and service station purposes will increase the danger of damage by fire to the adjoining buildings, and will cause an increase in the rates charged for insuring the adjoining buildings against loss or damage by fire, and will be a nuisance to said neighborhood; therefore, be it

Resolved, by the Board of Commissioners of Jersey City, That the application of William Byron for permission to erect brick extension to present building situated at the southwest corner of Carlton Avenue and Boulevard, Jersey City, N. J., be and the same is hereby disapproved.

Introducing an ordinance entitled "An ordinance regulating and restricting the location of trades and industries, and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected, and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the aforesaid purpose and providing penalties for the violation of its provisions."

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

At this time a delegation of the Jas. F. Gannon, Jr., Rentpayers' and Fair Landlords' Association appeared before the Board, requesting to be heard in the matter of an investigation of the methods of the city's Rentpayers' Bureau. Mayor Hague announced that if there is anyone who wishes to address the commission the Board is ready to proceed, and that the hearing shall be conducted in a quiet and orderly manner, and only one person at a time will be heard. There being a large delegation, Mayor Hague suggested that if someone has been designated to represent the association it would facilitate matters, that this is a very important matter and the Board is anxious to relieve conditions for the benefit of the people of Jersey City.

Mr. John J. Cox, president of the association, appeared, introducing Mr. B. B. Willis as having been designated as spokesman for the Rentpayers' Association.

Mr. Blaisdell B. Willis of 129 Dwight street stated that he would give his personal assurances that everything will be conducted in a manner strictly orderly; that they would like to have this matter straightened out in their own minds; that at the last meeting of their association Mr. Loughran assured them that Mayor Hague was behind him in this rent situation, which did not seem to satisfy the members, they wanting Mayor Hague's personal assurances in open assembly; that they are very strong on the matter as individuals and collectively as an organization; that they have watched Mr. Loughran's work pretty carefully and they feel he is the one man to handle the rent situation; that it has been pointed out that the tenants had not a leg to stand on when it came to litigation in the matter of raising rents; that they feel that if there is no law on the statute books to relieve the situation that some action should be taken to enact laws. Mr. Willis made mention of several instances of rent increases, reciting his own case at 129 Dwight street, and making inquiry as to the objectionable methods used in interfering with the striking rentpayers' demonstrations.

Mrs. Willard of 107 Baldwin avenue, Mrs. Johnson of 608 Hoboken avenue and a Mrs. Bernsweig appeared, reciting the methods used in handling their rent increases.

Mr. Willis suggested that an investigation be conducted in the handling of the Rent Bureau. Mr. B. Foley also appeared, protesting against the conduct of affairs in the Rent Bureau and requested an investigation before the Board of Commissioners.

Mayor Hague suggested that if it was the wish of the Rentpayers' Association that he appoint a committee to investigate the Rent Bureau he would do so. At this instance Commissioner Gannon stated that nothing would please him more than to have the Board of Commissioners or a committee of said Board investigate the charges made against his office from the day he took hold of the Rent Bureau, and on motion the following resolution was presented:

By Commissioner Gannon:

Resolved, That Mayor Hague be and he is hereby authorized and requested to appoint a special committee of the Board of Commissioners to investigate the conduct of affairs in the Rent Bureau under the supervision of the Director of Revenue and Finance.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

Thereupon Mayor Hague appointed Commissioners Bentley, Fagen and Moore to act as a special committee to conduct said investigation.

Upon the protest of the Rev. Harry L. Everett, pastor of the First Congregational Church, Boyd and Bergen Avenues, and the People's Palace, and other property owners on Bergen Avenue, Mr. Markowitz appeared, and also counsel for the contractors appeared, stating that an apartment is being put up across the street which is being built exactly the same as they are putting up; that all the buildings on that block are old structures; that the excavation has been completed and contract for doing the work has been given out, and that there is no reason why work should be stopped at this time, and the excavation being completed there is danger of the wall of the adjoining house falling down.

Mayor Hague suggested that all work be stopped until a hearing can be given the protestants who will be requested to appear next Tuesday, October 25, 1921, and instructions will be given the Superintendent of Buildings to make some arrangements whereby the wall of the adjoining building braced up, said work to be done under the supervision of the Superintendent of Buildings.

Upon the protest of the Rev. Godfried Andreae, of St. John's German Lutheran Church and others, the application of Walter LeBlanc to erect three one-story brick garages at 666 Bergen Avenue was called for a hearing at this time. Mr. LeBlanc appeared, and stated that he intends to build these garages on a plot of 40x30 feet approximately; that they will be 10 feet away from the church property; that they will be ornamentally constructed; that one garage will be used by the tenant living in the apartment and two will be used by him, one for a pleasure car and the other for a business car; that the plans were approved by the Tenement House Commission and permit issued by the Building Department.

Commissioner Moore stated that the Rev. G. Andreae and a delegation residing in the neighborhood called upon me and protested about the erection of these garages; that they will be erected right close to the window of the parsonage of the church; that the erection of these garages will become a detriment and a nuisance to the adjoining property, and will be a fire hazard and tend to increase insurance rates on the adjoining property.

By Commissioner Moore:

Whereas, This Board having held hearing and considered the application of Walter LeBlanc for permission to erect three one-story brick garages at 666 Bergen Avenue, Jersey City, and considered the objections filed is of the opinion that the erection of said garages will increase the danger of damage by fire to the adjoining buildings, and will cause an increase in the rates charged for insuring the adjoining buildings against loss or damage by fire, and will be a nuisance to said neighborhood;

Therefore be it resolved, By the Board of Commissioners of Jersey City that the permit granted to Walter LeBlanc to erect three one-story brick garages at 666 Bergen Avenue, Jersey City, be and the same is hereby revoked, and the Superintendent of Buildings be and he is hereby authorized to stop work on said permit.

Adopted.

Yeas: Commissioners Bentley, Fagen,
Gannon, Moore and Mayor Hague.

This time and place having been set for a continuation of hearing in the matter of the erection of apartment house by Yalinsky, Markowitz Company on the corner of Bergen and Virginia Avenues, and to consider the various protests filed against the erection of said apartment, the Rev. Dr. Harry L. Everett of the First Congregational Church appeared, as did Mr. J. H. Thomson and Mr. H. H. Scott, also Mr. Schenck, and stated that "some action should be taken by this Commission to compel Yalinsky to construct his apartment back of the building line on Bergen Avenue; that in all likelihood Bergen Avenue will in time have to be widened, and if this apartment house is erected on the building line the cost of the widening of Bergen Avenue would be great and practically impossible by the necessity of interfering with such a large structure, which would have to be moved back. Our personal appeals to Mr. Yalinsky to change his plans, keeping in mind the future welfare of the neighborhood, which is rapidly improving, to erect his apartment house back of the building line, having failed, we appeal to this Commission for protection."

Julius Seiden, counsel for Yalinsky, appeared and stated that his client is willing to make every concession possible to aid the situation, but that instead of setting back six feet of the building line, he is willing to concede to three feet, which is all that can be spared.

Mayor Hague announced that that was not sufficient; the interests of the people of this City are to be protected, and that the spirit of public interest should be shown by still making further concession, or this Commission would have to revoke the building permit.

Upon further consultation with his client, Mr. Seiden offered to build the apartment four feet back from the building line instead of three feet, which he announced was the best that can be done under the circumstances.

Mayor Hague advised the protestants to accept the offer made, which they did, and by mutual consent it was agreed by the protestants and applicants that the following resolution be adopted:

By Commissioner Fagen:

Whereas, Plans and application heretofore made and filed with the Superintendent of Buildings by Yalinsky, Markowitz Company for permission to erect an apartment house at the corner of Bergen and Virginia Avenues, said plans calling for the building to be erected on the building line of Bergen Avenue; and

Whereas, Protests were filed with this Board against the granting of such permission, and by agreement, in open meeting of this Board, made between the protestants and the applicants, it was decided that the applicants should erect such building at least four feet back of the building line on Bergen Avenue, and such agreement being made, this Commission does hereby

Resolve, That permission be and is hereby granted to Yalinsky, Markowitz Company to erect such apartment house on the corner of Bergen and Virginia Avenues at least four feet from and back of the building line on Bergen Avenue, and that the Superintendent of Buildings be and he is hereby directed to issue permit to erect said building, said building to be erected at least four feet from the building line on Bergen Avenue.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

Upon continuation of the hearing on the application of Mrs. Louise Amatrudi for permission to erect garages at 30-32 Kearney Avenue, Mr. Melosh appeared, and upon the instructions issued by the Board to have those persons present at this hearing who withdrew their protests against the erection of the garages, Mrs. Susie Scott appeared and stated she had no objections to make at this time against the erection of the garages. The other persons who withdrew their protests not having appeared, and in view of the recommendations filed by the Superintendent of Buildings that permission be denied, Commissioner Fagen suggested that the matter be referred to his department for investigation; that no specific action be taken at this time until a thorough investigation of the premises had been made, and therefore requested that the matter be laid over another week to Tuesday, November 1, 1921, in the Assembly Chamber, City Hall, Jersey City, at 2 P. M.

By Commissioner Fagen:

Whereas, The contract heretofore entered into between John T. Brady and Co. and the City, dated July 1, 1919, for the construction of the duplicate water pipe line between Romaine Gate House and west bank of the Passaic River provides that said line shall be laid at certain grades; and

Whereas, at the stations or points hereinafter mentioned and indicated or shown upon the plans attached to and forming part of the said contract the said water pipe line, although laid to said established plan grade was raised above the same through action of the elements; and

Whereas, The contractor has applied to the City for permission to allow the said pipe line at the points so raised and as shown on the profiles hereto attached to remain in such raised position; and

Whereas, In order to expedite the completion of the work it being deemed desirable by the City that the work be finished before the winter season of 1921-1922, the request of the said contractor be granted provided the same will not interfere with the efficiency of the said pipeline; and

Whereas, The engineer in charge of the work, Clyde Potts, has reported to the Director of the Department of Streets and Public Improvements that if the following changes are made the efficiency of the line will not be impaired or affected, namely, the installation of three-inch air relief valves as shown upon the blue print attached to this resolution and forming a part hereof, also the installation of pumping manholes of the size and type called for under the plans and specifications of the contract, also the cutting out of certain portions of the pipeline and the substitution therefore of closures at the points indicated upon said blue print; and

Whereas ,The continuance of said pipeline at the points where it has raised and so shown upon said blue print may give rise to claims for damages by the owners of lands abutting upon or adjacent thereto; and

Whereas, The raising of said pipe and the continuance thereof in the raised position will require placing thereon as a cover more earth fill than would have been required if the pipe had not raised; and

Whereas, In the judgment of this Board the request of the contractor should be granted upon certain conditions hereinafter expressed; therefore be it

Resolved, that the grade of the said pipeline at the stations indicated upon the blue print attached hereto and forming part hereof be changed in the manner shown upon said blue print, attached hereto, viz.:- the old established grade being shown in white and the new changed grade being shown in red, and that the said contractor be and he hereby is authorized to allow said pipeline so laid by him to continue at such new grade, provided:

1. That there be installed speedily, completely and in workmanlike manner the air valves and manholes referred to herein and called for and shown upon said blue prints.

2. That the buckles at stations:

294 plus 04
352 plus 14.5
365 plus 64.3
369 plus 220
371 plus 46.5
377 plus 44.5
671 plus 24

of said line be removed and there be substitute therefor closures, said work being done promptly and in a workmanlike manner.

3. That all of the work required by reason of the change in the grade of said line at the points indicated shall be done in accordance with the appropriate provisions or sections of the specifications for said contract applied thereto.

4. That the contractor shall before final payment on said work secure and deliver to the City such instrument or instruments as may be necessary to release and discharge any claims for damages arising out of the change of positions of said pipe line in favor of the owners of lands adjoining or abutting upon the locations or points at which said changes are made. In the event that satisfactory arrangements cannot be made with such abutting owners for such releases the City shall be authorized by the contractor to retain a sum of money to be fixed by agreement as a fund out of which it may pay such damages as may be awarded should it proceed to condemn as against the said owners or have to pay judgments in the event of suit. Failure to agree upon the sum to be retained shall result in the engineer in charge of the work fixing the amount to be so retained.

Inasmuch as certain additional fill is required to be placed over the top of said pipe the basis of payment for such fill in places shall be as follows:

The contractor will be paid for this fill or embankment on the basis of two dollars and eighty-five cents ($2.85) per cubic yard, taking bank measurements from the borrow pit where the material is secured; but there will be deducted from such bank measurements the number of cubic yards of fill or embankment which has been made necessary because of the raised condition of the pipe. This number of cubic yards of fill or embankment which will be deducted will be computed from the cross-sections, which cross-sections show the number of cubic yards of material that would have been required had the pipe been placed in the position called for by the plans, and also show the elevation at which the pipe is now placed.

Further resolved that two certified copies of this resolution shall be served upon the said contractor, one for its use and one to be assented to in writing by it and said assent in writing shall constitute the contractor's agreement that such changes shall be made at its sole cost and expense and without expense to the City other than for the fill which is herein provided for, such assented copy to be filled with the City Clerk.

Further resolved that the approval of the Board of Commissioners of Jersey City of this resolution authorizing the aforesaid changes is conditioned upon the filing by the National Surety Company, United States Fidelity and Guaranty Company, Fidelity and Deposit Company of Maryland, American Surety Company of New York, The Fidelity and Casualty Company of New York, London and Lancashire Indemnity Company of America, Hartford Accident and Indemnity Company, Maryland Casualty Company, The Aetna Casualty and Surety Company, New Amsterdam Casualty Company, and American Indemnity Company, sureties with the City Clerk within ten (10) days from the date of the passage of this resolution, each of their assents in writing to such action on the part of this Board and that each of them waive any and all defenses if any to liability on its bond, which might otherwise arise, such waiver to be approved as to form by the Corporation Counsel.

IMPROVEMENT HEARINGS

This time and place having been set and advertised to consider the confirmation and final passage of the report and final map filed by the Chief Engineer and Commissioners of Assessments of Jersey City in accordance with provisions of Chapter 152, Laws of 1917, for the following described improvements:

Johnston Avenue, between Grand Street and Cornelison Avenue.

New Street, between Ocean Avenue and Rutgers Avenue.

The City Clerk called for anyone who might desire to protest or who wished to be heard on the improvement of Johnston Avenue. No one appeared to protest and no written protests were received other than the appearance of Mr. Dippel of the Goldschmitt Termit Company, who requested the Board that some arrangement be made if possible in the payment of their portion of the assessment, with a view of granting them an extension of time for a period of ten years to make payments in yearly instalments; that they were in perfect accord with the improvement; that it is only a question of finances that makes it necessary to ask this request. Commissioner Fagen stated that while it might not be legal to grant the request, he had no objections to grant an extension of time to pay the assessment, but would refer the matter for opinion of the Corporation Counsel as to its legality. Thereupon the hearing was continued to Tuesday, November 22, 1921, at 2 o'clock in the Assembly Chamber, City Hall, Jersey City.

The City Clerk called for any one who might desire to be heard or protest against the improvement of New Street and confirmation of the final assessment map and report. $3,250, purchase one automobile.

This time and place having been set for public hearing on the Zoning Ordinance, Mr. John J. Treacy appeared and stated as follows:

"I do not desire to put myself in the position at this time as opposing the erection of apartment houses. The petition as drawn and presented is broader than I personally would advocate, but I do think that in view of the fact that Gifford Avenue has been built in accordance with restrictions laid down in the deeds at the time the property was laid out and developed by Mr. Gifford, there being contained a clause which provides for the erection of buildings on a certain line a certain distance from the sidewalk, the erection of certain class of buildings, which as I believe is not to cost less than $5,000, which in those days was a pretty good price for any building, and the entire block having been built upon in accordance with those terms and restrictions and built upon the line laid down within the deed, it seems your Honorable Board ought to take cognizance of that situation and, if possible, in the passage of this ordinance afford some relief. We do not desire to injure Dr. Albanesius. We are merely desirous of maintaining a situation that has been built upon in good faith by the people who live there, and the entire block having been built upon, we believe that the line designated in the restrictions should be maintained. I therefore propose this amendment to the ordinance:

Amendment to Section 2—Set-Backs—Paragraph 2, to read as follows:

"Upon corner lots the set-back to be maintained will be that of the street upon which the greater number of buildings already erected front in that half of the city block of which said corner lots form a part."

The above amendment was received and ordered filed.

Mr. MacBurney, Charles Wagner, Mr. Bauer and others appeared favoring the amendment of John J. Treacy.

Dr. Albanesius appeared protesting against the amendment offered by Mr. Treacy, and stated that he would be compelled to cut off a portion of the apartment house he proposes to erect and cause him considerable loss. He said the land values there on Gifford Avenue and Boulevard were too high, and he had of necessity to take advantage of all available space, taking into consideration the restrictions laid down by the Tenement House Commission.

Mr. M. T. Connolly, owner of the property nearby, also protested that if he were compelled to build on a set-back proposed by the amendment, he would suffer a big loss and his property would not be adequate in size to build; that he would be willing to sell his property rather than submit to such restriction.

Mr. Standley Griffin also appeared, stating that he did not think it would be constitutional and would not stand the test in the high court to place such restrictions, but that the only solution would be by condemnation proceedings, thereby giving the city the right to lay down a certain line to erect buildings.

Mr. W. J. Gorman, owner of property on Ocean Avenue and Chapel Avenue, asked for relief in the matter of placing his property on Ocean Avenue in residential zone.

Mr. Autenreith, representing the Hudson County Auto Association, requested the zoning of Boulevard in the neighborhood north and south of Communipaw Avenue for several blocks as a business section for the automobile trade, etc.

Mr. Stanton spoke in favor of the recommendations presented by the Chamber of Commerce.

Mr. McCaffery appeared and requested that that section on Monticello Avenue from Communipaw Avenue to Clifton Avenue be restricted to business.

Mr. Oscar A. Weisenbaum, of the Pencil Exchange, requested that Fleet Street between Oakland and Baldwin Avenue, where their plant is located, now set down as a residential section, be set aside as a commercial district, there being no residences in the block.

Mr. J. H. Thomson appeared, suggesting that the zone ordinance be drafted so that the people of Jersey City be protected on streets where there are set-backs of more than fifteen feet.

On motion of Commissioner Fagen, the hearing on the Zone Ordinance was adjourned and continued for a period of two weeks to Tuesday, November 22, 1921, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

Yeas: Commissioners Bentley, Fagen, Gannon, Moore and Mayor Hague.

By Commissioner Fagen:

Whereas, On the 7th day of June, 1921, a contract was entered into by the City with the Willite Road Construction Company, Inc., for the repaving with sheet asphalt on present stone block foundation the roadway on West Side Avenue, between Communipaw Avenue and the northerly line of Montgomery Street (excluding such portion as lies between the railway tracks and also that portion outside thereof which railway company is bound by franchise to repave), and also laying a 20-inch cast iron pipe between Communipaw Avenue and the northerly line of Montgomery Street; and

Whereas, Said contract was to be completed within a period of 125 days, which period has long since passed. The delay in the completion of the contract was occasioned by the repeated refusals of the Public Service Railway Company to repair the rails and repave the street between their rails and the portion outside of the rails which its franchise calls for it to maintain and repave. This refusal of the railway company to perform and do its franchise duty with the city, in repaving and relaying its rails, which are 2½ inches below the grade of the street, and which are in a dangerous condition; and but for the recent patches made upon its rails, cars would not be able to run thereon—is made by it on the ground that the budget committee of the railway company did not make an appropriation this year for the relaying of tracks and the repaving between the same on West Side Avenue, because it did not have the money wherewith to do it. Although this plea is now set up by the railway company since the execution of the repaving contract by the city with the Willite Road Construction Company—yet during the fall of last year and during the winter months the company frequently promised the city through the Director of the Department of Streets and Public Improvements that money would be appropriated, and the repaving and the relaying of the rails would be done by the company whenever the city determined to improve West Side Avenue; and

Whereas, Because of the continual refusal of the said railway company to perform its contract with the city as above set out, and inasmuch as the season of 1921 for repairs to streets has but a few weeks more before its close, and inasmuch as West Side Avenue is a business and traffic street and is now in a torn-up condition by reason of the partial execution of the contract for repaving and also the relaying of water pipe, especially on the west side of the street from Montgomery Street to Hudson County Park; and

Whereas, The Chief Engineer of the Department of Streets and Public Improvements recommends in view of the fact of the refusal by the railway company to put their rails and pavement at legal grade that it will be impossible to lay the asphalt on said street as called for by the specifications unless the paving blocks are removed and a concrete foundation placed thereon; and

Whereas, the lateness of the season will permit of but a part of such new construction to be made, and it is recommended by the said Chief Engineer that that part of West Side Avenue between Montgomery Street and the entrance to Hudson County Park on the west side of the railway tracks be excavated and concrete foundation placed thereon and then asphalted, and that the balance of the street be put in repair for winter travel only, and that during the winter season bids be solicited for the balance of the street to be done with a concrete foundation in place of the present stone block pavement; and

Whereas, There is no item in the specifications or contract between the City and the Willite Road Construction

Company for the doing of this improvement, but there is an item for concrete 6 inches deep by the yard under wood block pavement which would be similar in quantity and quality except yardage that would be called for in the paving of this avenue, and inasmuch as each bidder who submitted proposals upon the existing contract bid on concrete under wooden block it is recommended by the Director of Streets and Public Improvements that the Willite Road Construction Company be authorized and directed to place the foundation with concrete 6 inches deep on the west side of West Side Avenue, from Montgomery Street to the entrance of the Hudson County Park before the winter sets in; and

Whereas, This would entail an expense of more than $500 which would necessitate due advertising for proposals; and

Whereas, Time will not permit because of the lateness of the season to solicit proposals and award contract for the doing of said work before the close of the season, thus leaving the street in a dangerous condition to travel and which would also entail a financial loss to the merchants of said street and an annoyance amounting to a nuisance to the residents of the neighborhood if allowed to remain in its existing dug-up condition; therefore be it

Resolved, That upon the advice of the Chief Engineer and recommendation of the Director of the Department of Streets and Public Improvements it is hereby determined and it is the judgment of this Board that an emergency exists such as is comprehended by Chapter 319, Laws of 1920, and that time will not allow to advertise and solicit for bids because of the lateness of the season, and that not only the business loss and inconvenience to the merchants and residents of the neighborhood, but the danger to traffic demands that the street be put in a passable condition for the winter; be it further

Resolved, That the Director of Streets and Public Improvements be and he is hereby authorized to direct said contractor, Willite Road Construction Company, Inc.., to proceed with the placing of a concrete foundation 6 inches in depth on the west side of West Side Avenue, between Montgomery Street and the entrance to the Hudson County Park, for the laying thereon of asphalt in place of the foundation of stone block called for in the specifications and contract and that the price bid by the said Willite Road Construction Company for the laying of concrete under wood block be the price per yard to be paid to the said contractor for concrete so laid by it on the West Side of West Side Avenue, between Montgomery Street and the entrance to the Hudson County Park; and be it

Further resolved, That the consent of the said Willite Road Construction Company, Inc., and its sureties to the doing of the said work as above set forth at the price therein named, and the release of the city from all claims or demands for loss or damage, profits, or future profits, by reason of its original contract, or to grow due therefrom, and the rescission of said original contract will be evidenced by the signing of a certified copy of this resolution and the filing of the same in the office of the City Clerk.

The following persons appeared and stated they were in favor of the improvement:

Estate of Enos F. Jones, owner of Lot 19-20, Block 1868, and Lot 8-9-10, Block 1868½, Sip Avenue.

Mrs. Gardine, owner of Lot 4B, Block 1871, Bergen Avenue.

At this time Mr. Chas. A. Fischer together with a delegation of property owners on Sherman Place and Summit Avenue appeared with petition protesting against the erection of apartment house proposed to be erected by Klatz Brothers. Mr. Fischer vigorously protested against the erection of said apartment house that it will be a detriment to the entire neighborhood in that this neighborhood has been a restricted section to one and two-family houses; that their homes will be seriously affected in that their property might be depreciated and spoil the immediate neighborhood and by the erection of said apartment house will take away the light from some of their homes as most of the houses are set back of the building line.

Mr. Wolf, counsel for Klatz Brothers, stated they were willing to compromise on the set back of said apartment house and do everything possible to aid in the relief of said property owners and would be willing to come to any suitable agreement. That the property owners were willing to come to an agreement was left in the hands of Commissioner Gannon to adjust matters, and on motion of Mayor Hague the hearing was adjourned to Tuesday, November 29, 1921, in the Assembly Chamber, City Hall, Jersey City, at 2 p. m.

Whereas, The Director of Revenue and Finance and the Director of Streets and Public Improvement have had many requests to withhold various properties from said sale for various reasons stated by the applicants, but have refused to order any property omitted from said sale because it is the sense of this Commission that it is expedient that Jersey City collect all her revenues in arrears; therefore be it

Whereas, The Port of New York Authority created by the joint action of the Legislatures of New York and New Jersey to plan the comprehensive development of the metropolitan port district has this plan in preparation and will present it for adoption to the Legislatures of New York and New Jersey in January, 1922; and

Whereas, The Port of New York Authority has asked for constructive criticism and recommendations to assist it in preparing this comprehensive plan, be it therefore

Resolved, That it is the unanimous opinion of the City Commission of Jersey City that the most vital feature of a comprehensive plan of development for the Metropolitan port district is the devising of proper means for the immediate relief of the congestion existing in New York Harbor, particularly along the Hudson and East River shores, and it is the further firm opinion of the City Commission that such relief can and must be accomplished without delay and should precede the construction of future tunnels, bridges and other great developments required which involve long periods of time for their construction, and be it further

Resolved, That in the opinion of the City Commission of Jersey City this immediate relief of the congested conditions of the port can be most rapidly, economically and effectively accomplished by deepening the channels in Newark Bay, the Hackensack and Passaic Rivers and constructing along the easterly and westerly shores of Newark Bay and along the Hackensack and Passaic Rivers a system of belt or marginal railroads connecting together all the trunk line railroads entering the Passaic-Hackensack Valley, thus articulating the deepened waterways of Newark Bay and its tributary rivers, creating direct railhead-steamship connection from the West to any port of the world. It is here pointed out that 85 per cent. of the ocean going commerce of the port of New York is carried in vessels drawing 25 feet of water or less. It is obvious that a very large percentage, if not all, of this commerce can be brought to railhead connection in the Newark Bay district, thereby at once greatly reducing lighterage in the harbor, releasing many of the present railroad yards and piers along the Hudson and East Rivers for their proper use the berthing of ocean going ships and thereby greatly simplifying the port of New York problem, and be it further

Resolved, That the City Commission of Jersey City urge upon the Port of New York Authority the inclusion of this plan for immediate relief of the congestion in the port, as a fundamental feature of the comprehensive plan now in preparation by the Port of New York Authority and to be presented for adoption by the Legislatures of New York and New Jersey in January, 1922, and be it further

Resolved, That a copy of this resolution be transmitted to the Port of New York Authority.

At this time Commissioner Bentley announced that Jersey City is soon to be visited by Marshal Foch of the Allied Armies some time around the middle of next month, and that the necessary arrangement could be made by this Commission in offering him the keys of the City; that a communication has been sent to Washington to find out the exact date and hour of the Marshal's arrival here. Commissioner Bentley further stated, "my attention has been called to the fact that in the Holy Name Cemetery there are two French soldiers and sailors to whom a monument is being erected. I think it would be a very fitting thing that the Generalissimo of the Allied Armies be present for the purpose of dedicating that monument. We can turn out all the Veteran organizations, the local National Guard, and if possible get a detachment of Regular Army soldiers and sailors. I think we could make it a wonderful spectacle and send the Marshal back with the memory that there is such a place as Jersey City. If it meets with the approval of the Board I shall proceed with the ceremonies."

Resolved, That Commissioner John Bentley be and he is hereby appointed Chairman of a Committee to be named by him and to take all measures necessary for the reception to be tendered Marshal Foch by the City of Jersey

Hearing on the protest of property owners and residents on Hancock Avenue and Griffith Street, having been adjourned to this time and place against the erection of two garages by Fred Siekamp at 72 Hancock Avenue, Jersey City, after hearing parties interested for and against the erection of said garages, Commissioner Gannon stated that the erection of these garages will add to the fire risk of the property in the immediate neighborhood, thereby becoming a fire hazard and a nuisance to said neighborhood and moved the adoption of the following resolution:

By Commissioner Gannon:

Whereas, This Board having held hearings and upon considering the application of Fred Siekamp for permission to erect two brick garages at 72 Hancock Avenue, and considering the objection filed is of the opinion that the erection of said garages will increase the danger of damage by fire to the adjoining buildings, and will cause an increase in the rates charged for insuring the adjoining buildings against loss or damage by fire, and will be a nuisance to said neighborhood; therefore be it

Resolved, By the Board of Commissioners of Jersey City that the permits issued to Fred Siekamp to erect two brick garages at 72 Hancock Avenue, Jersey City, N. J., be and the same is hereby revoked.

Blumenthal, Klein and Frank Henderson, also Dr. Hespe appeared to urge a modification of the ordinance before final passage. Mayor Hague stated that he would not unduly hamper any movie house or theatre, but he insisted on additional safeguards against fire, and adequate protection to the public. Also that Mr. Saul, Superintendent of Buildings, had in mind some amendments to make on the ordinance, that this Commission must be guided by the warnings presented by him against danger. In the absence of Mr. Saul and that the ordinance may be carefully considered and put in shape to meet all requirements an adjournment of the hearing on this ordinance was suggested by Mr. Blumenthal.

Whereas, The Weehawken Dry Dock Company, a corporation of the State of New Jersey, has made application to the City of Jersey City for a lease of the premises hereinafter described; and

Whereas, This Board has considered the said application and is of the opinion that the interests of the City would be served by making a lease of said premises upon the terms hereinafter set forth;

Resolved, That a lease of the said premises be made to the Weehawken Dry Dock Company upon the following terms and conditions:

The City will lease to the said company, its successors and assigns, the said premises for the period of twenty-five years, for the total rental payment of one hundred and sixty-five thousand dollars ($165,000), payable in quarter-yearly installments in advance, with the right on the part of the lessee, its successors or assigns, to another term of twenty-five years, upon the same terms, upon giving written notice to the City at least six months prior to the expiration of said first term of twenty-five years.

The City will covenant that the lessee, its successors and assigns shall have, during the said term, all the right, title and interest of the City in the said premises, and shall have the right, and is hereby authorized and empowered by the City, to take such action or other proceeding in law or otherwise as said lessee may deem advisable, in the name of the City but at the cost of the said lessee, to enforce the rights of the City to the possession of the tract of land leased as aforesaid, and to enforce the rights of the City in the tidewater basin adjoining the said described tract of land on the south, and to make such agreement as the lessee may desire with the State Board of Commerce and Navigation or other board, body or authority having control of the said tidewater basin, and with any department, board or official of the Government of the United States which may have any jurisdiction over said tidewater basin, and with the owners of any land fronting upon said tidewater basin, regulating the use of said basin, or providing for its dredging, or enlarging or diminishing the size of the said basin, and said lessee shall have all of the rights that the City now has, or may hereafter acquire, to use any part of the tidewater basin which has been filled in in front of the said lands, without recourse in damages against the City in the event of the interference by anyone with such use, and to take any action in the name of the City, but at the expense of the lessee, which the lessee may deem advisable in any court of competent jurisdiction or otherwise, to secure the possession and use of the same, or to compel the removal of any land or other obstruction in navigation within the limits of the said tidewater basin.

The lease shall contain a provision that the same may be terminated by the City at the expiration of three years, if at that time the lessee has not expended at least two hundred and fifty thousand dollars ($250,000) in improving said premises and erecting structures, machinery and buildings thereon, including dredging.

The lease shall contain a provision that when the Lehigh Valley Railroad Company shall cease to occupy the premises hereinafter referred to, the City will lease the said premises to the lessee herein upon the same terms as are contained in said lease hereby authorized, and at the same rental per square foot which the Lehigh Valley Railroad is then paying.

The lease shall also contain a provision that the same is made subject to certain other leases or parts of said premises heretofore made by the City to Anthony O'Boyle or the Liberty Dry Dock & Repair Company, John Heaney and John Swenson; but the City shall assign to the lessee, its successors and assigns all the right, title and interest of the City in and to said lease, and shall authorize and empower the lessee to terminate said leases in accordance with the terms thereof, as fully as the City would have the right and power to do; and shall further authorize the lessee to take the proper legal or other appropriate proceedings in the name of the City but at the expense of the lessee, to enforce any of the covenants of the said leases, or to terminate the same, and to remove the said tenants from said premises; and the City agrees that any rentals actually paid to the City on account of any of the said leases after the lease hereby authorized shall take effect, shall be credited to the lessee on account of any rental agreed to be paid to the City by the lessee.

The lease shall contain a provision that if at any time after the first ten years of the first term of the lease, the City shall undertake an extensive municipal improvement or development to be municipally operated, which shall require the use of the remaining City property in the South Cove and also the demised premises, by entering into a binding contract, or by other action committing the City to the said improvement, then the City may terminate said lease, or any renewal thereof, by giving one year's written notice to the lessee, and at the expiration of the time mentioned in said notice, the said lease shall terminate, provided, however, that in that event the City shall pay to the lessee, its successors or assigns, the cost of the improvements, buildings or other structures erected, including the dredging required therefor, by the lessee upon or in connection with the said premises.

The amount of said payment shall be determined by arbitration, the City selecting one arbitrator and the lessee, its successors or assigns, selecting another, and those two a third arbitrator; and the decision of any two of the said arbitrators shall be binding upon the City and the lessee, its successors and assigns.

The lease shall also contain a provision that the lessee in developing the leased premises shall conform to the map or plan of improvement of the South Cove adopted by the City known as the Jersey City Development Plan; Proposed Development of Morris Canal Basin and the South Cove dated May 29, 1920, to the extent that no bulkhead shall be erected east of the westerly line of the proposed bulkhead, nor west of the easterly line of the proposed bulkhead, nor southerly of the northerly line of the proposed bulkhead, as laid down on said plan; and that the south of the Basin shall not be closed up so as to prevent the ingress or egress of vessels; and all bulkheads built shall be in general conformity with said plan.

The premises in question are described as follows:

This time and place having been set for an adjourned hearing on the application of Margulies & Gerstenfeld for permission to erect store front at 819-819a Bergen Avenue, the Acting City Clerk called for any one who might desire to protest. Mr. Dear of the Jersey Journal appeared, stating that his presence before the City Commission was to have an amicable agreement settled upon, as was said when before this Commission last week that they will see the wisdom of extending the proposed Bergen Avenue widening beyond Bergen Square, laying aside any objections that may be made against the application. Commissioner Fagen stated that he intends to introduce an ordinance early in January for the widening of Bergen Avenue up to Montgomery Street, and there might be some difficulty in doing so, but the City Engineers are at work on plans, and from all indications the project will be pushed through then, and if the applicants would wait until, perhaps, better arrangements could be made which would be of more advantage to them and enable them to come to better conclusions.

Mr. Margulies appeared and stated that under the circumstances he was willing to abide by the sentiments of the Commission in this respect and let the matter lay in abeyance, when a better opportunity presented itself to go ahead with his plans. It was therefore mutually agreed by all parties present to await future developments.

In the matter of the property owners and residents of Sherman Place protesting against the erection of proposed apartment house by Klotz Brothers, hearing on which has been postponed from time to time, at the request of Acting Mayor Gannon, Corporation Counsel Brogan, from whom was requested a legal opinion as to what rights the City had in making a mutual agreement between the parties concerned, stated that this Commission is powerless to act in the matter if the plans of the applicants comply with the Building Code of the City, and if they insist they can go out on the building line, which is within their right. It is a matter for them to settle. Mr. Fischer, representing the protestants, appeared and so did Mr. Pyle, representing the applicants. Mr. Pyle stated that he was willing to make an amicable settlement and therefore arranged for a conference with Mr. Fischer and Klotz Brothers in his office providing some definite action be taken by the Commission to close the incident. At the behest of Acting Mayor Gannon the following resolution was adopted:

By Commissioner Gannon:

Resolved, That the opinion to be submitted in writing to this Board by the Corporation Counsel be and the same is hereby referred to the Director of the Department of Revenue and Finance with power to act in the matter of the protest against the erection of proposed apartment house by Klotz Brothers on Sherman Place.

Adopted.

At this time I. Farber Goldenhorn, counsel of Fripal Realty Company; Harvey Cohen and Mr. Friedman of the Fripal Realty Company appeared before the Board requesting a refund of its payment of $3,500 to the Director of Revenue and Finance for personal taxes in the matter of the sale of the property owned by it and conveyed to them by Cockburn Corporation; that while they admit they owe a moral obligation to the City, the amount paid by them under protest is an exorbitant tax, and that a rebate should be made. Commissioner Gannon stated that he feels the tax collected is a fair and equitable one, and that in order to give the matter due consideration he is willing to submit the entire situation at a conference with the Corporation Counsel, to which Mr. Goldenhorn agreed.

FRANCHISE HEARINGS

This time and place having been set and advertised for public hearing on the application of Matilda King for permission to maintain encroachment of building known as premises 364½ Fourth Street.

The City Clerk called for anyone who might desire to protest against the granting of said permission. No persons appeared to protest and no written protests were received.

By Commissioner Fagen:

Introducing an ordinance entitled: "An Ordinance for the relief of Matilda King in relation to the encroachments of the frame building and one-story frame annex attached thereto consisting of a store and dwelling house, situated on the northeast corner of Brunswick and Fourth Streets, and known as No. 364½ Fourth Street, in the City of Jersey City."

Received and ordered placed on file in the office of the City Clek for a period of two weeks for the purpose of public inspection.

This time and place having been set and advertised for public hearing on the application of Erie Railroad Company and others for permission to construct and maintain overhead bridges and change grades of Henderson Street, Grove Street, Erie Street, Coles Street, Monmouth Street and Jersey Avenue, and to vacate 11th Street and Provost Street.

The City Clerk called for anyone who might desire to speak in favor of or against the granting of said permission.

The following appeared to protest against the granting of the above mentioned permission in so far as their property is concerned:

Mrs. Rose Fay, 208 Erie Street.

John Turbidy, 549 Henderson Street.

Mrs. Mary Dittmer, 739½ Jersey Avenue.

Isabella Dittmer, 261-3 Twelfth Street.

Louis McKenna, 555 Grove Street.

Peter Bentley, representing several property owners.

Mary O'Sullivan, 558 Grove Street.

Thos. A. & Catherine L. Drumm, 100 Bentley Avenue.

M. Healy, 210 Erie Street.

Hugh A. Kelly, 616 Pavonia Avenue.

M. J. Curry, 26 West Hamilton Place.

Chas. M. Egan, 75 Montgomery Street.

Marie C. Heavey, 316 Pavonia Avenue.

M. Rochford, 236 Ninth Street.

Mr. Drumm stated that if the Erie Railroad Company is to be given the permission requested, what is to become of the property remaining in that portion of Twelfth Street which the Tunnel Commission and the Railroad Company have agreed upon to purchase; that until that situation is settled they would protest against the vacation of Eleventh Street; that in the petition heretofore made by the railroad company some eighteen months ago, they promised to acquire certain lands. As yet they have not made any offer to the property owners affected.

Mr. Bain of the Erie Railroad Company appeared and stated that in so far as the acquiring of certain lands is concerned by the terms of a contract between the Tunnel Commission and the Railroad company, there is provided therein that an attempt is to be made to acquire the remaining property along the lines of the proposed construction of the Vehicular Tunnel. There is every intention on the part of the Erie Railroad to carry out its dealings in a fair and just manner.

Mayor Hague stated that at a conference held in his office between the Erie Railroad and the Tunnel Commission it was the understanding at that time that the City was to vacate Eleventh Street in consideration of which the railroad company and the Tunnel Commission were to buy on Twelfth Street, as agreed upon, sufficient property to widen Twelfth Street.

The City Commission was of the opinion that nothing was to be done in the granting of the permission desired until the railroad company and the Tunnel Commission had purchased the property along Twelfth Street. At this time, allow me to say that we cannot go ahead and grant this permission while the provisions of the agreement of the railroad company and the Tunnel Commission are not being carried out. We cannot leave the property owners affected at the mercy of the Tunnel Commission. I would therefore suggest that this hearing adjourn for two weeks.

By Commissioner Fagen:

Resolved, That the hearing on the application of the Erie Railroad Company and others for the vacation of 11th Street and Provost Street, and the construction of bridges and the change of grades of Henderson, Grove, Erie, Coles, Monmouth Streets and Jersey Avenue, be and the same is hereby adjourned for a period of two weeks to Tuesday, February 28, 1922, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and Mayor Hague.

Nays: None.

IMPROVEMENT HEARING.

This time and place having been set and advertised for the purpose of hearing and considering objections against the adoption of the final map and report as filed by the Commissioners of Assessments on the Improvement of Center Street, between Bright and York Streets, in accordance with the provisions of Chapter 152, Laws of 1917, and the various supplements thereto and amendments thereof, the City Clerk called for anyone who might desire to protest against the same. The following appeared and stated that while the improvement was a desirable one and the work satisfactorily completed, the assessment therefor was a little more than they anticipated to pay:

B. VIOLENTE,
J. BELLINI,
ANGELO TESTA,
G. LANNIE,
J. COLANDRILLO,
THOS. DONATO.

Commissioner Fagen stated that the nature of the improvement was such that the assessment levied was a just and fair amount, and as neither all nor any of the objections presented are sufficient, moved the confirmation of the final map, report and assessment for the improvement.

By Commissioner Fagen:

Whereas, This Board met on the 28th day of February, 1922, to hear, consider and adjudicate upon objections which might be presented against the final assessment map and report for the Improvement of Center Street, between Bright Street and York Street, conformably to the provisions of Chapter 152 of the Laws of 1917 and various supplements thereto and amendments thereof, and

Whereas, This Board has considered each and all the objections presented at such meeting, and have adjudicated upon the same, and have determined that neither all nor any of them are sufficient; therefore

Resolved, That said final assessment map and report, as filed by the Commissioners of Assessment on the 7th day of February, 1922, and the said assessment therein shown be and the same are hereby confirmed, and that the City Clerk be directed to file the same with the City Collector for collection.

ALTERATION HEARINGS.

This time and place having been set and advertised for hearing on the application of Frank DeMaio for permission to alter premises and build new brick addition to front of building at 412 West Side Avenue, as per plans on file.

The City Clerk called for anyone who might desire to protest against the granting of permission for doing said work. No written protests were filed or received, and no one appeared to protest against said application.

By Mayor Hague:

Resolved, That the application of Frank DeMaio for permission to alter premises and build new brick addition to front of building at 412 West Side Avenue, Jersey City, as per plans on file, be and the same is herebly referred to the Superintendent of Buildings and the Mayor for investigation with power.

At this time Mr. Adolph Langer appeared and stated that he represented the various civic and business associations of the city in relation to an ad-

The first step suggested is to place the large sketch of the development vertising campaign for Jersey City. of the hill section, which the Commissioners have seen, in the concourse of the Hudson Terminal Building, permission for which has been secured. This, of course, naturally suggests some sort of data in the form of a pamphlet or booklet telling about Jersey City. Feeling that there are thousands of people passing through Jersey City every day, they secure their only impression of Jersey City passing through on the trains. The committee tentatively organized, now before you, is to ask your hearty cooperation. There is no selfish motive in this move, and it is being put over solely for Jersey City, and that being the case, the governing body of the city should have representation on this committee, and it is the desire of this committee that you delegate a member of your commission to act with it. In this campaign the various suburban districts, such as Staten Island, Long Island and the Oranges, and such, are to be reached.

Mayor Hague stated that he had a plan in mind for some time to display a large electric sign with "Jersey City" on it on the buildings of the various large industries, such as Colgate & Co., along the water front of Jersey City, which could be done at their expense and advantage. This plan was verily accepted, and it was suggested that Commissioner Gannon act on the committee organized to represent the City Commission, and place his office at its disposal.

Wm. J. Dodd of Disabled Soldiers' League, J. J. Carroll and Eugene Mullins of the Veterans of Foreign Wars, Hannah Jeffas and Mrs. Jacobsen of the War Mothers appeared and stated that they were in favor of having the City Commission consider the report submitted by the War Memorial Committee of One Hundred, of which George T. Smith is chairman, in relation to the erection of a memorial arch; that they strongly advocated the erection of a memorial building similar to that being erected in Washington and the city of New York; that they approached Mr. Smith, who stated that he would be only too glad to meet with the City Commission and go over the situation.

Mayor Hague advised the delegation that he would be very glad to take up this question with the War Memorial Committee.

ORDINANCE HEARING

This time and place having been set for continuation of the hearing and consideration of the passage of an ordinance to amend an ordinance, entitled "An ordinance governing the handling, transportation and shipment of manure in Jersey City, passed September 2, 1915," the city called for any one who might desire to protest against the passage of said ordinance.

Counsellor Charles Hershenstein appeared for Jersey City Stable Owners' Association on whose behalf he registered a protest against the passage of the amendment to said ordinance; that it serves but one purpose and compel the railroad company to change their equipment in the transportation of manure which will mean that the railroad rates will be increased; that because of the prohibitive rates which the railroad company will charge, the stable owners will be unable to remove their manure, or that they will have to pay for the removal of manure, whereas heretofore it was taken away by the manure cartman free of charge, and that they have no carts for its removal because they have no dumping ground for the manure.

Mr. Charles Wagner appeared and stated that the passage of the amendment meant for the welfare and health of the city in general, and that as far as the increase of railroad rates affecting the transportation of manure, there is no truth in the statement as that question comes within the jurisdiction of the Interstate Commerce Commission.

On motion of Commissioner Fagen, the passage of the above ordinance was referred to miscellaneous business.

Mr. C. I. Leiper, general superintendent of the P. R. R., through his special agent, appeared and wished to be placed on record as protesting against the passage of said ordinance.

This time and place having been set for hearing on the application of James Allen for permission to alter and extend building at premises, 457 Bergen avenue, Mrs. Lay and Mr. Meehan appeared, protesting vigorously against the erection of the proposed extension. Mr. Freund, representing Mr. Allen, appeared and stated that the building of the proposed extension was to be made up to the building line, and that it is not the intention to construct said extension to the detriment of the abutting property owners, and if that were the case the applicant at this time is willing to agree to a compromise in its construction.

Commissioner Gannon moved that the matter be referred to him for his investigation and report and that the hearing be adjourned to Tuesday, March 21, 1922, at 2 p. m. in the Assembly Chamber, City Hall.

ORDINANCE HEARING

This time and place having been set and advertised for the purpose of considering the final passage of an ordinance entitled: "An Ordinance regulating and restricting the location of trades and industries and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected, and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the aforesaid purposes and providing penalties for the violation of its provisions."

The City Clerk called for anyone who might desire to speak in favor of or against the passage of said ordinance.

Counsellor I. Gross, representing Builders' League of Jersey City, vigorously protested against certain provisions of the ordinance. He objected to paragraph four, section two, concerning the erection of private garages, the front wall of which shall not be nearer than eighty feet to the front line lot, bringing about the fact that there are a great many so-called short lots throughout the city, particularly in the Bergen section, that to set down certain restrictions surely cannot encourage the construction of buildings in residential districts.

Mr. Gross also objected to the restrictions laid down in section three with reference to the erection of buildings to be not less than three stories in height.

Commissioner Fagen stated that this ordinance had been gone over time and time again at various conferences held by the Commission and hearings held at Commission meetings, and the ordinance in its final and substantial form is ready for passage. It seems to the best advantage of all concerned that, rather than bring about a delay in the passage of this ordinance, if you will notice section twelve with reference to appeals, this paragraph provides in specific cases the Board of Commissioners may determine and vary the regulations set down in this ordinance upon appeal. It seems best at this time that this ordinance be adopted.

By Commissioner Fagen:

Resolved, That the following ordinance do now pass:

An ordinance regulating and restricting the location of trades and industries, and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected, and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the aforesaid purposes and providing penalties for the violation of its provisions.

The Board of Commissioners of the Mayor and Aldermen of Jersey City do ordain as follows:

The City Clerk read the foregoing ordinance as ready for final passage.

The roll being called, the ordinance was passed by the following vote:

Yeas: Commissioners Bentley, Fagen, Gannon and Mayor Hague.

By Commissioner Fagen:

Resolved, That the hearing on the foregoing ordinance do now close.

Yeas: Commissioners Bentley, Fagen, Gannon and Mayor Hague.

Hearing having been set for this time and place upon the protest of the property owners and residents in the immediate vicinity of 170 Griffith street, objecting against the operating of the plant of the Jersey Fur Dressing Company at 170 Griffith Street. Counsellor John Milton appeared, representing the protestants, and stated that the objections to this plant are simply based on three grounds, namely, that the property constitutes a fire hazard, the manner in which the business is conducted amounts to a nuisance, and, third, that certain chemicals are used in the business which constitute a danger.

No one appeared to represent or speak for the Jersey Fur Dressing Company, and at the suggestion of Mr. Milton, in order that a thorough investigation could be made by the Commission, an adjournment of this hearing was consented to for Tuesday, March 28, 1922, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

Hearing having been adjourned to this time and place upon the application of Miss M. E. Hughes for permission to alter premises to erect store front at Prescott and Park Streets, Counsellor George appeared for the applicant, stating that Miss Hughes' only means of livelihood is in the maintenance of a small store on Park Street, and the property having been purchased and that she is compelled to vacate the premises occupied by her; that because of having to quit her present location she was compelled to purchase a piece of property that she might continue her business, and asks that she be permitted by the Board to alter her property in order that she may erect a store front on her premises.

Mayor Hague stated that upon the protests of the various property owners and residents in the immediate vicinity they must be given consideration, and that because of the adoption of the Zone Ordinance, which restricts that neighborhood to residential purposes only, this Commission must deny Miss Hughes' application.

By Mayor Hague:

Resolved, That the application of Miss M. E. Hughes for permission to alter premises and erect new store front at premises 43 Park street be and the same is hereby denied.

Adopted.

Yeas: Commissioners Bentley, Fagen, Gannon and Mayor Hague.

Nays: None.

Hearing having been adjourned to this time and place upon the application of James Allen to erect and extend new store front up to building at premises 457 Bergen Avenue, Commissioner Gannon reported that upon investigation he saw no objection to the granting of said permission, provided that the store front be extended 3½ feet instead of 7 feet; that it would not be an obstruction to any great extent to the adjoining property owned by Miss Lay; that a new store front would make a vast improvement in the neighborhood.

Miss Lay objected to the erection of the new store front if it were to extend beyond her property, as originally intended by Mr. Allen.

Mayor Hague stated that Miss Lay should be sustained in her objection, but that perhaps a denial of this application would give cause for Mr. Allen to make application for a writ of mandamus which would prove successful to him to extend the store front seven feet up to the building line, if he cared to do so, and Mayor Hague advised Miss Lay to consent to the acceptance of an agreement made by Mr. Allen that he will extend the new store front only 3½ feet rather than go to the court for a writ of mandamus. To this Miss Lay agreed.

By Mayor Hague:

Resolved, That the application of James Allen for permission to erect and extend new store front at 457 Bergen Avenue be and is hereby granted, provided that the said extension of new store front shall not be more than 3½ feet beyond the front of said building as presently situation; and, further,

Resolved, That the Superintendent of buildings be and he is hereby authorized and directed to accept plans to be filed by James Allen in accordance with the terms above mentioned, and to issue permit for doing said work.

Adopted.

Gannon and Mayor Hague.

Yeas: Commissioners Bentley, Fagen,

Nays: None.

This time and place having been set and advertised for the purpose of considering the passage of an ordinance relating to the changing of the name of Van Reipen Avenue to Brensinger Avenue, the City Clerk called for anyone who might desire to speak in favor of or against the passage of the ordinance.

Mr. Fred Dieffenbach, Jr., appeared, representing the property owners and residents of Van Reipen Avenue, strenuously objecting against the change of the name of Van Reipen Avenue, because for many years back, since the year 1859, when the street was dedicated by Mr. Van Reipen to the city, it has been known and called in his honor, to which relatives of his who are here today can testify; that the residents who occupy some fine residential homes on the avenue are proud to have that name remain; that Van Reypen Street for many years was what was called a lane and was called Idaho Avenue until 1880 or 1882, when it was changed in a peculiar manner to Van Reypen Street.

Commissioner Bentley stated that the reason why Van Reypen Avenue was considered in the change was because the deceased Hon. George F. Brensinger lived on that avenue and to call it Brensinger Avenue was to do honor and pay a marked tribute of respect for the duty which he has rendered the city and his country.

By Mayor Hague:

Resolved, That the hearing on the ordinance changing the name of Ván Reipen Avenue to Brensinger Avenue be and the same is hereby adjourned to Tuesday, April 11, 1922, at 2 p. m. in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Hearing have been set for this time and place upon the protest of residents and owners of 91 Poplar Street objecting against the erection of garages at property 91 Poplar Street, Counsellor Dunn appeared for Mrs. Drexler and applicant, stating that the permit was issued by the Building Department in regular form, the application and plans having the approval of the Zone Commission.

Mayor Hague stated that the Building Department had no right to issue a permit for doing work at 91 Poplar Street when the application was denied; that it lies within the jurisdiction of this Board to say whether this permit should be granted if after satisfactory explanation is brought to the City Commission to decide upon the merits of the application.

Counsellor Dunn asked for one week adjournment in the case that he may go over the records in the case.

By Mayor Hague:

Resolved, That the hearing on the protest of the residents and property owners in the vicinity of 91 Poplar Street objecting against the erection of garages by Teresa Drexler at 91 Poplar Street, be and the same is hereby adjourned to Tuesday, April 11, 1922, at 2 p. m. in the Assembly Chamber, City Hall, Jersey City.

Hearing having been set for this time and place upon the protest of residents and property owners in the vicinity of Woodlawn and Ocean Avenue, objecting against the erection of a warehouse by Sklar Brothers, Mr. Adelman, architect for Sklar Brothers, appeared and stated that their plans call for the erection of a three-story building to contain stores on Ocean Avenue, a storage warehouse for storing furniture and a garage for commercial purposes to store auto trucks used by Sklar Brothers, and that on the corner of Woodlawn Avenue and Ocean Avenue will be erected a three-story apartment house.

Mr. Mennke appeared with a delegation of property owners and residents objecting to the erection of said buildings, that they will be a nuisance to the neighborhood, which has been maintained as a residential section; that the erection of a garage and storage warehouse will tend to depreciate their house values and create a disturbance in the neighborhood by the operation of said business, and that the erection of said buildings is undesirable in that particular neighborhood; that they request the Commission to deny the application of Sklar Bros. to erect the buildings proposed to be constructed.

By Commissioner Fagen:

Resolved, That the protests of the property owners and residents in the immediate vicinity of Woodlawn and Ocean Avenue objecting against the erection of three-story building at the corner of Woodlawn and Ocean Avenue be sustained and that the application of Sklar Brothers to erect three-story building at Woodlawn Avenue and Ocean Avenue be and the same is hereby denied.

This time and place having been set for a continuation of the hearing on the protests of several property owners and residents in the immediate vicinity of 91 Poplar Street objecting against the erection of garage to be erected by Teresa Drexler at 91 Poplar Street, Counsellor Dunn appeared, representing the applicant, stating that the facts in the case are that the first application made by Mrs. Drexler was turned down by the Zone Commission because of the proposed erection of this garage on the front line of the property, and that a second application was made, in which it was agreed between the applicant and the Zone Commission to set the said garage back seventeen feet beyond the line of said premises, and that on March 28, 1922, a permit was issued by Superintendent of Buildings John Saul, after which, a day or so later, the police ordered all work stopped, and that now Mrs. Drexler has incurred a certain debt and obligation when she entered into contract for the erection of said garage, having acted in good faith on the strength of the issuance of the Building Department permit.

Mayor Hague stated that this application after its denial had not been before this Commission for reconsideration, and that the ruling of this Board supersedes the authority of any commission or body of the city government in passing upon the merits of the application and granting of said permit. Protest has been filed against said application and the rights of citizens and property owners are to be conserved and protected.

Counsellor Dunn stated that he did not know whether it is the proper procedure to grant a permit just because one commission did not go to another.

Commissioner Fagen stated that he is opposed on the ground that it is not only against the Zone Ordinance, but that this section is residential, although there are some old factories and frame buildings in the neighborhood, and the erection of this proposed garage in the center of the lot would block the windows of the adjoining property of these protestants, and that it is against the best interests of the neighborhood.

By Commissioner Fagen:

Resolved, That permission be and the same hereby is denied to Teresa Drexler to erect garages at 91 Poplar street, and that the permit issued by the Superintendent of Buildings be and the same hereby is revoked.

Adopted.

MISCELLANEOUS BUSINESS

By Commissioner Bentley:

Whereas, Bids have been received for the furnishing and delivering of one (1) automobile for use in the Department of Public Safety, as per plans and specifications on file in the City Clerk's office; and

Whereas, The bid of the Jersey City Cadillac Company is the lowest bid received; therefore, be it

Resolved, That the contract for furnishing the above named automobile be and the same is hereby awarded to the Jersey City Cadillac Company at the price named in their bid, $3,380.00, and be it further

Resolved, That the Corporation Counsel be and he is hereby authorized and requested to prepare and have executed the necessary contract for same.

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

By Commissioner Gannon for Commissioner Fagen:

Whereas, John T. Brady & Company, contractors, building duplicate water pipe line Section No. 1 from Boonton Reservoir to the Passaic River, has requested that there be paid to it out of the retained percentage held by the City the sum of eighty thousand dollars ($80,000), and

It appearing that the City has in its hands representing moneys retained from time to time out of the payments made to such contractor the sum of $210,000, and the Director of Streets and Public Improvements advising this Board that it is highly desirable that such pipe line be completed as speedily as possible, so as to increase the quantity of water delivered to the City, and that the contractor desires such payment to assist it in hurrying the work, and

Whereas, Counsel for the City has advised the Director of Streets and Public Improvements that there is no legal objection to the making of such payment, and

It further appearing that said contract and the work provided for thereunder will be finished within three or four weeks from the date hereof,

Therefore, be it resolved, That warrant be drawn in favor of said John T. Brady & Company for the sum of eighty thousand dollars ($80,000) on account of such retained percentage, and that said warrant be delivered to the said contractor upon the furnishing by it of a consent of the sureties on its bond to making of such payment.

By Commissioner Gannon for Commissioner Fagen:

Whereas, Contract was heretofore entered into between the City and Patrick McGovern for construction of 72-inch steel water pipe line between Passaic River at Lyndhurst and the Summit Avenue Reservoir, Jersey City, being known as Section No. 2; and

Whereas, The Director of Streets and Public Improvements reports that he has been advised by Clyde Potts, the consulting engineer of Jersey City, that said line has been completed in accordance with the plans and specifications and is now ready for the City's use and should be accepted; and

Whereas, According to final estimate prepared and approved by said consulting engineer there appears to be due to the said Patrick McGovern the sum of $179,793.24, from which there should be deducted the sum of $6,210, the cost of making repairs to the surface of Carlton Avenue; and

Whereas, Under the provisions of said contract 2 per cent. of such amount is to be retained for the period of one year after the acceptance of the work as a fund to guarantee the proper maintenance thereof as provided in Section AA of the contract, page 33 of the printed specifications; and

Whereas, The said Director of Streets and Public Improvements recommends that for said cash the contractor be permitted to substitute the bond of an authorized surety company in the sum of fifty thousand dollars conditioned for the maintenance of said work in accordance with the provisions of the contract; and

Whereas, The Director of Streets and Public Improvements also reports that the contractor has filed with him certain claims for extra work under the contract, all of which claims have been rejected by him with the exception of two, one of which for slope excavation has been allowed under opinion of counsel for the City and the other of which for repairs to wet connections has not been disposed of pending certain litigation between the contractor and his sub-contractor, to which litigation the City is a party; now therefore be it

Resolved, That the said work be and the same hereby is accepted and the said Director of Streets and Public Improvements be and he hereby is authorized and directed to accept the said pipe line and take over the same on behalf of the City; and it is further

Resolved, That a warrant be ordered drawn in favor of the said Patrick McGovern in the sum of $173,583.24, representing the balance due him under said contract less said Carlton Avenue repairs, which warrant shall be delivered to him upon his filing with the City Clerk the following:

1. A release of any and all claims against the City except a certain claim for $1,849.40 for repairs to wet connections upon which no action at this time is taken because of the pendency of certain litigation involved in the same.

2. A bond of an authorized surety company in the sum of fifty thousand dollars conditioned in accordance with the provisions of the contract for the proper maintenance of said work for the period of one year from and after this date.

Whereas, An assessment for taxes for the year 1918 was heretofore assessed against George G. Tennant, Trustee in Bankruptcy for John D. Dailey and De Witt C. Ivins, partners trading as Dailey & Ivins, by the Department of Revenue and Finance of Jersey City, amounting to the sum of One Hundred and Fifty Thousand Dollars, which said assessment was subsequently reduced by the State Board of Taxation and Asassessments to Forty Thousand Two Hundred and Nineteen Dollars ($40,-219.00), which said reduced assessment was affirmed by the New Jersey Supreme Court and later by the New Jersey Court of Errors and Appeals in the last resort in all causes; and

Whereas, It seems equitable and just under all the circumstances of the case that the assessments for the years 1919, 1920 and 1921 should be compromised and reduced; now, therefore, be it

Resolved, That the Department of Revenue and Finance be and it is hereby authorized and directed to amend and settle the foregoing assessments with said George G. Tennant, trustee as aforesaid, upon the payment by him of the taxes for 1918 on the basis of Forty Thousand Two Hundred Nineteen ($40,219) Dollars, with the accrued interest to date of payment on said taxes, and the simultaneous payment by him of the taxes for the years 1919, 1920 and 1921 on the basis of an assessment of Sixty Thousand Dollars (to which sum the assessment for those years is hereby reduced) for each of those years, without interest.

This time and place having been set for hearing on the protest of the several property owners and residents in the immediate vicinity of Boulevard and Poplar Street objecting to the erection of garages by S. Baratti at 3641 Boulevard, the Acting City Clerk called for anyone who desired to be heard therein. Mr. George appeared, representing the protestants, who stated that the side wall of the proposed garage would be within three feet to the adjacent property and would be detrimental thereto, and that the erection of said garage is only a subterfuge to build an extension to the present factory site by breaking through the side wall; that if it is necessary to build a garage the applicant may do so on his adjoining property, thereby not obstructing the adjoining property.

Mr. Brenner appeared for the applicant and stated that they were willing to erect said garage within the regulations of the building code and zone ordinance; that the building situated on the corner will be destroyed after the expiration of a lease thereon, and it is the intention of the owners to erect a two-family house and make use of the garage. However, the applicant is willing to erect said garages on the adjoining lot if there is no objection. Commissioner Fagen stated if the applicant were to build garages on the adjoining lot it would be best for his future interest as well as for the neighbors. Thereupon Mr. Breener consented to file new plans.

By Commissioner Fagen:

Resolved, That the application of S. Baratti to erect and maintain two garages in the rear of lot at premises 3641 Boulevard be and the same is hereby denied.

Mr. Winters appeared with plot plan, and asked that Commissioner Fagen make an inspection of the premises.

By Commissioner Bentley:

Resolved, That the application of George Winters for permission to erect garage at Van Houten Avenue and Boulevard be and the same hereby is referred to the Director of the Department of Streets and Public Improvements for his investigation and recommendation.

Adopted.

Yeas: Commissioners Bentley, Fagen, Moore and Mayor Hague.

This time and place having been set for continuation of hearing on the application of Lewis Max for permission to alter premises 123-25 Montgomery street, Mr. Hoos with a committee representing the Chamber of Commerce and Newark Avenue Business Men's Association, protesting against the granting of said permission; that the present condition of the building is in a deplorable state, the floor being 18 inches under the level of the sidewalk, and that the property downtown is on the verge of immediate development with a better type of buildings. Mr. Record appeared for Mr. Max and stated that it is not the choice of the Chamber of Commerce or any other body or association to say this building should be destroyed and another building erected in its place. It is the intention of the applicant to repair the premises and put it in a first-class condition with stores and living apartments above to bring a fair return on the investment. Because of land values, etc., it would be impossible to erect a new modern building and be able to obtain a fair return.

By Commissioner Bentley:

Resolved, That the application of Lewis Max for permission to alter premises and erect new store fronts at 123-125 Montgomery Street, be and the same is hereby referred to the Superintendent of Buildings for investigation and report back to this Board.

Fletcher of 441 West Side Avenue appeared objecting to the extension of said premises to the building line as it would obstruct their property and become a detriment to the neighborhood.

Mr. Wallen appeared and stated that he intended to build to his building line, as there were other stores erected in the same manner and he was doing nothing but what was within his rights.

Mayor Hague stated that he should at least try to set back this extension enough so that it would not become such a detriment to the adjoining property, shutting off their view, that it would help matters along in the neighborhood.

By Commissioner Bentley:

Resolved, That the application of Nathan Wallen for permission to alter premises and erect brick extension at 443-445½ West Side Avenue, be and the same is hereby referred to the Superintendent of Buildings for investigation and report back to this Board.

Hearing on the application of Charles Staiger for permission to erect garage at 1010 Summit Avenue having been continued and set for today, Mr. Meehan appeared for the applicant and stated that he was willing to help matters along if the protestants would state their objections. Mr. Henry Weiss appeared and stated that his house was immediately adjacent to the proposed garage and would shut out his sight and air and be a detriment to his property. Mr. Meehan agreed that they would build this garage as many feet from his rear lot line as it would be from the rear of their premises, to which Mr. Weiss agreed.

By Commissioner Fagen:

Resolved, That permission be and the same hereby is granted to Charles Staiger to erect garage at 1010 Summit Avenue, Jersey City, as per plans; and it is further

Resolved, That the Superintendent of Buildings be and he hereby is authorized and requested to issue permit for doing said work.

Mr. Benjamin Darling appeared and stated that he represented the owner of three lots on St. Paul's Avenue between Oakland and Baldwin Avenues, which it is contemplated to use for industrial purposes, but because of the Zone Ordinance restricting this section to residential uses it is impossible to do so. Mr. Darling requested that this section or part of it be changed to industrial purposes, particularly some 200 or 250 feet on the southerly side of St. Paul's Avenue east of the southeasterly corner of Oakland and St. Paul's Avenues, as there are several structures in that immediate vicinity used for industrial purposes.

Mr. Saul, Superintendent of Buildings, appeared and stated that the neighborhood is such that a great number of industrial plants are located therein, and that that portion of St. Paul's Avenue being changed to industrial uses would be within the meaning of the zone ordinance. Thereupon Mr. Darling presented and suggested the passage of an ordinance to amend the zone ordinance.

By Commissioner Gannon:

Introducing an ordinance entitled, "An ordinance regulating and restricting the location of trades and industries, and the location of buildings designed for specified uses, and regulating and limiting the height and bulk of buildings hereafter erected, and regulating and determining the area of yards, courts and other open spaces surrounding buildings, and establishing the boundaries of districts for the aforesaid purposes and providing penalties for the violation of its provisions," passed March 21, 1922.

By Commissioner Fagen:

Whereas, Water used by Jersey City in public buildings or sewer flushing, street sprinkling, fire protection and for other public uses including potable purposes by the inhabitants of the City (in number three hundred thousand) is obtained from the Rockaway River where there is maintained a water works system in Morris County, with the water shed of the Rockaway River as a gathering ground and a reservoir at Boonton, such water being carried to this City by means of 72-inch steel water pipes and concrete aqueducts, the daily draft for such purposes being approximately forty-three million gallons of water; and

Whereas, In addition to the foregoing public necessities the City also furnishes water to the Delaware, Lackawanna & Western Railroad Company at Hoboken, the Pennsylvania Railroad at its terminal in Jersey City and at its shop in Kearney, the West Shore Railroad, the Lehigh Valley Railroad, Central Railroad of New Jersey and Erie Railroad, the daily supply of all of which companies aggregate approximately fifteen million gallons of water and

Whereas, Such demand for water is progressive and has steadily increased since the City acquired its water works system in October, 1911, and so increased in the past few years that the City was unable to meet its requirements with the former facilities, namely, a single pipe line from the reservoir at Boonton to said pumping station the City heretofore undertook the construction of a duplicate pipe line which is about completed and portions of which are now in the service; and

Whereas, Said reservoir at Boonton contains approximately one hundred days supply of water for ordinary normal demands and the result of the construction of such additional or duplicate pipe line is a more rapid depletion of such reserved supply so that unless the City secures other sources of supply to be used as storage reservoirs, it is in danger during periods of drought of experiencing a shortage in water, causing suffering and inconvenience to the people of this City, interruption of the business affairs of its factories and manufacturers and interferences with the service of said railroads; and

Whereas, Split Rock Pond is a body of water covering about 315 acres and lying in Rockaway Township, Morris County, being within the limits of the water shed of the Rockaway River, which said pond, if acquired by this City, can at a moderate expense be converted into an additional storage reservoir as a means of protection against shortage in the event of a drought or dry period; and

Whereas, In the opinion of this Board it is necessary and advisable that said Split Rock Pond and the land covered thereby and certain lands adjacent thereto and draining therein be acquired by the City for the purpose of conversion into a storage water supply to protect the City against consequences of a shortage in water; all of which said lands are described in schedule annexed hereto; and

Whereas, The Director of Streets and Public Improvements, through agents, has endeavored to agree with the owner of said Split Rock Pond upon the value thereof and has been unable so to do; and

Whereas, There is now presented to this Board a petition in the name of this city and addressed to Hon. Charles W. Parker, Justice of the Supreme Court of New Jersey, seeking the appointment of commissioners to condemn said lands and property and to fix the compensation to be paid therefor; now therefore be it

Resolved, That the Mayor and City Clerk be and they are hereby authorized to execute said petition in the name of this city, and John Milton of Jersey City be and he hereby is authorized and retained on behalf of this city to present said petition to said Supreme Court Justice and conduct such condemnation proceedings for and on behalf of this city.

At this time Commissioner Bentley presented his resignation as follows:

"May 23, 1922.

"The Honorable Board of Commissioners, Jersey City, New Jersey.

"Gentlemen:

"After many of the happiest years of my life spent in the service of the city under your administration, and after the last year or more in companionship with you, I cannot but express some feeling of regret as the time approaches when our companionship in the public service must be terminated. However, you know that the honor conferred upon me by the Chancellor is one that few lawyers could find it in their hearts to refuse; therefore, acknowledging to each and every one of you the obligations of kindness and assistance that I have invariably received at your hands, it now becomes my duty to tender my resignation.

"I hereby offer you my resignation as a Commissioner of Jersey City and Director of Public Safety, to become effective on the 23d day of May, 1922.

"Very truly yours,

(Signed) "JOHN BENTLEY,"

"Director."

Before accepting the resignation of Commissioner Bentley his fellow Commissioners and Corporation Counsel Brogan and Mr. John Milton paid glowing tributes and lauded Mr. Bentley as a man, a lawyer, a city official and, lastly, as a soldier.

Commissioner Moore stated: "We seem to have quite a few hellos and farewells in this Commission, but yet it is an honor to be permitted to tender a resignation. There is a certain sentiment connected with many of them which makes us feel sad in a way, especially when things are running nicely and men are working to carry out those things which they believe to be best for the people, but I know every official feels quite glad in his heart because of your elevation. Still, it is very hard to say good-bye to a man you have learned to love. You have been loyal to your country, you have been loyal to your life ties, loyal to your friends, and never has there been any doubt about John Bentley expressing his opinion and being on the side which he believed was right. I congratulate you, and it is the hope of this Commission and the hope of your multitude of friends that the 'V' some day may be dropped from your name and you may be Chancellor of the State."

"The Bench of New Jersey is certainly honored in having as its Chancellor a man with the good sound common sense to pick a man of the type of John Bentley for the Vice-Chancellorship," said Commissioner Gannon. "The experiences you have gained in the Directorship of Public Safety will be an added asset to you when you don your judicial robes"

Commissioner Fagen stated: "I may be last, aside from the Mayor in expressing my sentiments, but not the least in heartfelt gladness and warmth over your elevation It is, as has been said, with a tinge of sadness that we see you go from our midst, but this sadness is tempered in our knowledge of your lofty ambition to go on the bench and we rejoice with you that that ambition has been gratified"

Corporation Counsel Thomas J. Brogan stated, "that while working with Vice-Chancellor Bentley in the Law Department, I learned that he was a sound lawyer with a sound brain and sound judgment, and a man whose friendship any man might value and cherish until the end of time. He would grace the bench and bring it added lustre."

Mr. John Milton stated, "I have known Commissioner Bentley for a great many years, going back to the period long before we were budding lawyers. We were presented to Jersey City as its Law Department, and I think the chief charm about John Bentley, and that charm is not going to leave him when he dons the judicial ermine, is his rugged simplicity and Gibraltar-like integrity of the man. That attracted me to John Bentley more than anything else. His sincere open nature,, and that is what has endeared him to the people of Jersey City, and his promotion is well deserved, and I congratulate him and the bench of this state."

Mayor Frank Hague stated, "I have been associated with Mr. Bentley during his entire public career, and it is most gratifying to see him elevated to the bench. I am glad to have the opportunity to congratulate the new Vice-Chancellor, and I not only hope, but know that he will not stop there but will even go higher and keep on going until the fruits of his labors are justly rewarded."

Commissioner Bentley in response to to the various complimentary remarks stated: "Mayor and fellow commissioners, like Mr. Milton, I wish that I could express the thoughts that have passed through my mind as you gentlemen have sent me along on my way with words of cheer and encouragement, and I am vain enough to believe that every one of you are sincere because after nine years of association with you I have yet to look back upon an enemy made. I have yet to look back upon anything that has been done to me that might have in the least aroused my ire or ill feeling. As I say in my letter of resignation, I have met with unvarying kindness on the part of all my associates.

"I am the example of what a strange animal man is. During all my career as a law student and a lawyer, stretching back over a period of twenty years, the elevation to the bench of the state has been my whole object and goal, and yet ever since the Chancellor announced that he would select me for that honor, I have felt rather homesick, I feel like a man going on a long journey, from which he may never return to see his friends again, and I know in my heart that I shall never snap the bonds of friendship that have been formed. I know I am going to remain the friend of the many whose friendship has come to me in this hall. If I am able to make any measure of success in my future position, I shall attribute it to the experience I have had in life while in these associations. I think that I am broader and bigger and a better man than I would have been had I not entered into public life. Of course, it all seems strange to me that I should have had this honor conferred upon me, but such as it is and heavy as the responsibilities will be, I am going to meet them very much encouraged and strengthened by the good wishes and expectations of my friends.

"I say to you, Mr. Mayor, and my other associate commissioners, and the friends I leave in the Law Department, and I say to the men of my department who have given me their most loyal and intelligent support, that I leave here with a real feeling of love for all of you and I hope that you gentlemen, my fellow commissioners, will be spared to carry out the many plans and projects that will make our city and take the proud place it deserves among the greatest municipalities of our country."

By Mayor Hague:
